

Corrections to the 2020 Printed Furbearer Regulations

- On the chart on page 11 the swift fox season dates were listed as Nov 1 – Mar 1. The season dates for swift fox were changed to Nov 1 – Jan 15 during the 2020 season setting process for furbearers that occurred in August.
- Inadvertently, the department overlooked the existing requirement within commission regulation that required fur dealers to purchase or possess only martens that had been tagged. For consistency and to truly eliminate the need for the physical inspection, marten was stricken from the following statement contained within commission regulation: "It shall be unlawful for any fur dealer or fur dealer agent to purchase or possess any untagged bobcat, otter, marten, fisher, or wolverine, except those untagged furs originating outside Montana that are accompanied by an export permit or other documentation of lawful acquisition."
