# Welcome Message from Eileen Ryce

## Montana's Fish Chief

After a year like no other, I have found a new appreciation for my love of the outdoors. Based on what I have seen around me, many of you have, too.

As the world shut down around us, we learned that the outdoors is still there for us. Rather than scrambling from school events, sports, concerts, movies, fairs, rodeos, and all the other things that consumed our “normal” lives, we found we could still float the river, launch a boat on the reservoir, or hike to that lake you haven’t been to in years.

Our fisheries staff is accustomed to getting phone calls for fishing information. This year we still had numerous calls from people out of state making their first trip to Montana, but we also heard from many long-time anglers who were looking to explore new waters or further flung places to escape the crowds. We also heard from several families who wanted to start fishing as a family activity, and we heard from people who started kayaking, rafting, or standup paddle boarding and were curious to also start fishing while they were on the water.

Some visitation numbers confirm that folks were flocking to the outdoors last year. Montana State Parks saw a 24.4 percent increase in visitors from January through September 2020. Parking lots were full at fishing access sites across the state, and fisheries administrative staff had to scramble an order of FAS camping fee envelopes in early June when a typical order lasts well beyond one camping season. My own visits to what are typically secluded fishing and birding spots were often shared with at least one other car in the parking lot.

Even though many of us may be reluctant to share some of our favorite spots, we are blessed with opportunity. An analysis by our data services staff estimates 8,661 river miles of “catchable” fish, meaning fish that are typically desired by anglers (this is likely a conservative number). That’s nearly the entire combined length of the Missouri and Mississippi rivers of fishing opportunity! Factor in lakes, reservoirs, and ponds for even more fishing opportunity.

So even though we are seeing more people out than we are used to, I encourage you to continue to practice patience and welcome the newcomers and those who may been absent for a while back to the outdoors. There’s opportunity and space out here for all of us.

Stay safe, stay healthy, and see you on the water.

Eileen Ryce  
Montana Fish Chief

HAVE YOU  
CHECKED OUT

# FISHMT?

FWP's new site is a **“one-stop shop”**  
for all things fisheries related.

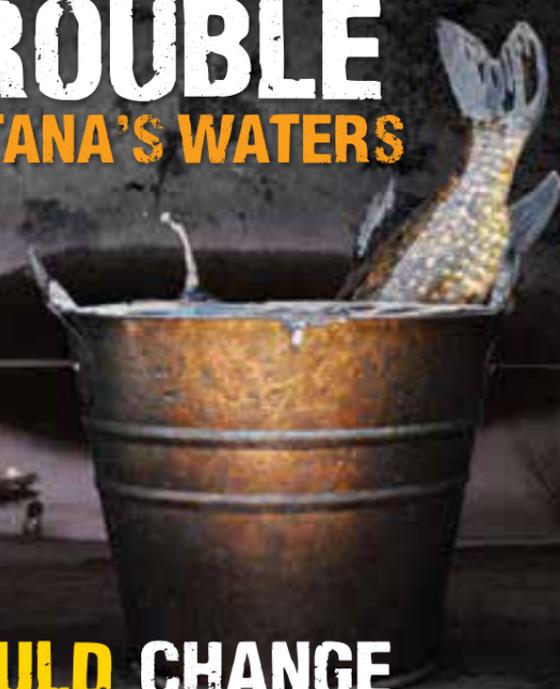

The new page contains recent fishing news, interactive maps, fishing access sites, waterbodies with photos, species information and so much more!

## Stop the transport of Aquatic Invasive Species

### When transporting watercraft WITHIN Montana:

- All watercraft are required to stop at all open watercraft inspection stations. Failure to stop could result in a fine of up to \$500.
- All watercraft crossing the Continental Divide into the Columbia River Basin or into the Flathead River Basin must be inspected before launching.
- Boats with ballasts or bladders, such as wakeboard or wake-surfing boats, crossing the Continental Divide into the Columbia River Basin must obtain a decontamination before launching.
- Due to the detection of invasive mussel larvae in Tiber Reservoir all watercraft exiting Tiber Reservoir are required to be inspected. (MCA 12.5.706) A Certified Boater program is available for boaters primarily using Tiber Reservoir.

### When transporting watercraft INTO Montana:

- All watercraft entering Montana are required to be inspected before launching, including residents returning to Montana.
- Boats with ballasts or bladders, such as wakeboard or wake-surfing boats, that intend to launch on Montana waters must obtain a decontamination before launching.
- Nonresident boats (motorized and non-motorized) launching on Montana waters must purchase the Vessel AIS Prevention Pass. Motorized fee = \$30. Non-motorized fee = \$10. Pass is valid thru Dec. 31, 2021. Learn more and purchase at [CleanDrainDryMT.com](http://CleanDrainDryMT.com).

### It is illegal to:

- Transport AIS into or within Montana.
- Transport live fish and bait fish into Montana.
- Transport surface water.
- Move live fish, aquatic plants or invertebrates from one waterbody to another without FWP authorization.
- Release unwanted bait fish into water.

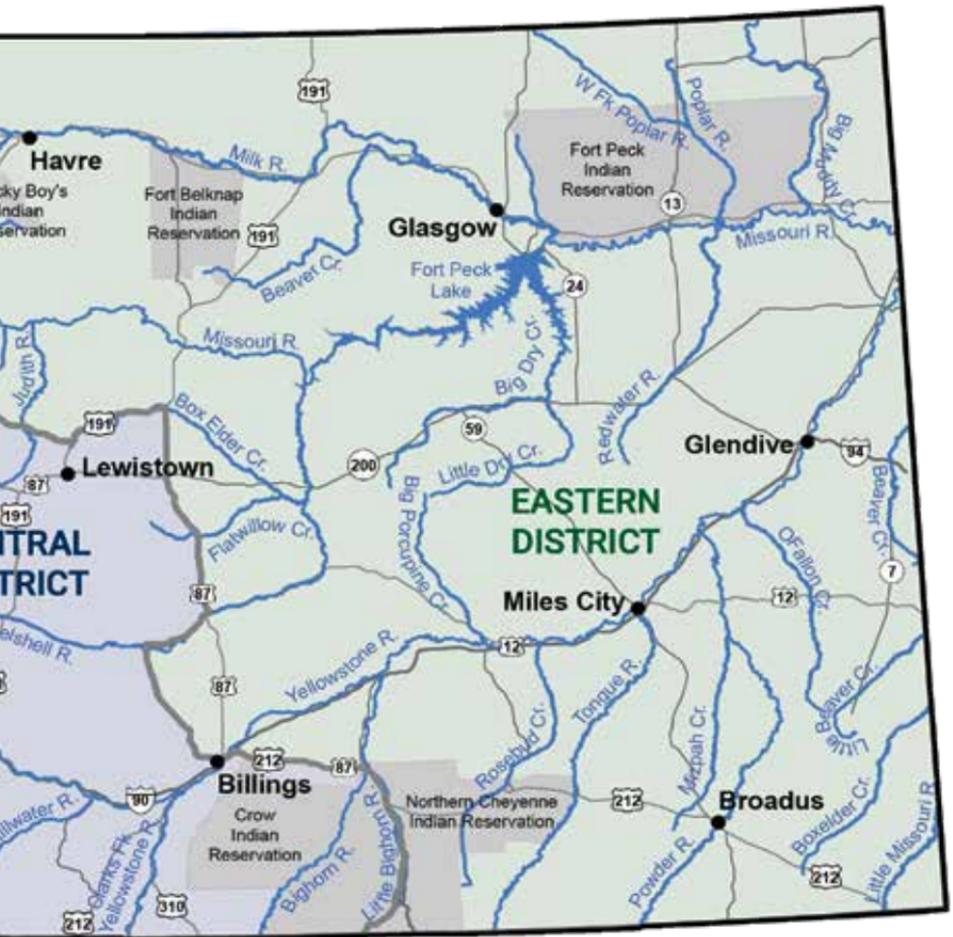

**To find a watercraft inspection station**

**Visit [CleanDrainDryMT.com](http://CleanDrainDryMT.com)**

**Call 406-444-2440**

and information on each waterbody

## Montana Fishing Access Sites

With over 339 fishing access sites to choose from across the state, anglers enjoy good access to the state's streams and rivers, lakes and reservoirs. You may download a field guide to fishing access sites located on Montana's streams, rivers, and lakes, or you may use the interactive FWP Fishing Access Site Search at [myfwp.mt.gov/fishMT/explore](http://myfwp.mt.gov/fishMT/explore) to find a fishing access site.

The field guide describes the Fishing Access Sites (FASs) located on Montana's streams, rivers and lakes that vary in size from less than one acre to several hundred acres. Montana's FAS program provides public access to high quality waters for angling, boating, rafting, and other recreation opportunities. In addition, FASs are often popular areas for hunting, wildlife viewing, hiking, bird watching, picnicking, etc. The funding to purchase, develop, and maintain these important sites comes from the sale of sportsman's licenses, state motorboat registration fees, and federal Sport Fish Restoration fees.

### Fees

There are no day use fees for Montana's FAS program; however, where overnight camping is allowed, a camping fee may be charged. The revenue from the camping fees is used to offset the additional expenses involved in operating and maintaining these higher use sites.

### Commercial Use

A permit is required to conduct commercial activities at fishing access sites. Please contact the Regional FWP administrative office or the FWP website for more information.

### Camping

Many of the FASs are managed as day use only, but camping is allowed at 97 locations. An overnight camping fee is charged at many of the sites and are available on a first-come, first-served basis.

FASs are primitive or semi-primitive sites. They do not have electricity, running water, or dump stations. Not all sites are designed for access by larger recreational vehicles. It may be necessary to physically inspect the facility before pulling in if the parking area is not visible from the access road.

Additional camping opportunities with higher levels of development are available at Montana's State Parks and at other locations throughout the state. Please refer to the State Parks brochure for a list of state parks with campgrounds.

## Emergency Fishing Regulations/Closures

FWP may announce short-term emergency fishing closures in response to biological or environmental conditions. Sport fishing regulations in this booklet for the designated waters will be suspended, and fishing may be curtailed or disallowed for the duration of the emergency period announced by the department. In recent years, many Montana streams have experienced drought conditions. Low stream flows can force trout to congregate in pools, making them more susceptible to anglers. Warm water temperatures can cause considerable stress to trout and can be fatal to fish handled by anglers. Check the FWP website, your local newspaper or call your regional FWP office to find out about emergency regulations/closures.

## Regulations Adopted by the F&W Commission

By order of the Fish & Wildlife Commission (F&W Commission), the seasons, limits, and regulations listed here shall govern the 2021 fishing season (a fishing season runs from March 1 through the following February). These regulations were adopted by the F&W Commission on October 22, 2020, and will be valid March 1, 2021, through the end of February 2022. The F&W Commission may formally adopt changes to these fishing regulations, including emergency regulations/closures or corrections. Any changes to these regulations for the 2021 season will appear on the FWP website [fwp.mt.gov](http://fwp.mt.gov). Emergency regulations/closures are posted at access sites. Anglers must check the web to make sure they are in compliance with fishing regulations.

**Discrimination Prohibited**-This program receives Federal financial assistance from the U.S. Fish and Wildlife Service. Under Title VI of the 1964 Civil Rights Act, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and Title IX of the Education Amendments of 1972, the U.S. Department of the Interior prohibits discrimination on the basis of race, color, national origin, age, sex, or disability. If you believe that you have been discriminated against in any program, activity, or facility, or if you need more information, please write to: Office of Civil Rights Department of the Interior 1849 C Street, NW Washington, DC 20240

## How To Use These Regulations

Follow these easy steps:

- 1) Determine the fishing district that you will be in and read the district's standard regulations. These are the regulations and limits that apply to a majority of waters in the district.

**WESTERN FISHING DISTRICT – page 19**

**CENTRAL FISHING DISTRICT – page 47**

**EASTERN FISHING DISTRICT – page 74**

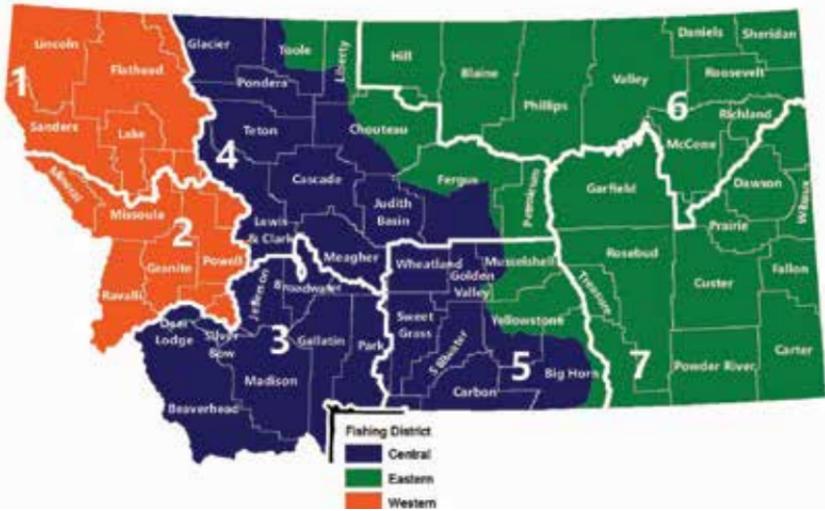

Check if the specific water you will be fishing is listed in the District Exceptions to Standard Regulations (waters are listed alphabetically). If the water you plan to fish is identified, the exceptions take the place of the standard regulations for those items listed (i.e. season, daily limits, etc.). If not listed, the District Standard Regulations apply.

- 2) If you don't find the water you are looking for listed in the district exceptions, use the standard regulations for the district you are fishing in. If you don't find a species you are looking for in the exceptions for your water, use the standard regulations for the district.

- 3) ***New or changed 2021 regulations are displayed in bold italics.***

Or: Check the Montana Fish, Wildlife & Parks (FWP) website at:  
[fwp.mt.gov/fish/regulations/](http://fwp.mt.gov/fish/regulations/)

## What Do I Need to Fish in Montana?

Age	Conser- vation License	AIS Prevention Pass 16 & Older	License Fee	Total Cost
0-11	No license required. Must observe all limits and regulations.			
Resident 12 - 15	\$4.00	No Fee	\$5.00 for 2 consecutive calendar days	\$9.00
			\$10.50 for season	\$14.50
Resident 16 - 17, 62 and older	\$4.00	\$2.00	\$5.00 for 2 consecutive calendar days	\$11.00
			\$10.50 for season	\$16.50
Resident Disabled 18-61	\$8.00	\$2.00	\$10.50 for season	\$20.50
Resident 18-61	\$8.00	\$2.00	\$5.00 for 2 consecutive calendar days	\$15.00
			\$21.00 for season	\$31.00
Nonresident 12-15	\$10.00	No Fee	\$25.00 for 2 consecutive calendar days	\$35.00
			\$56.00 for 10 consecutive calendar days	\$66.00
			\$86.00 for season	\$96.00
Nonresident 16 and older	\$10.00	\$7.50	\$25.00 for 2 consecutive calendar days	\$42.50
			\$56.00 for 10 consecutive calendar days	\$73.50
			\$86.00 for season	\$103.50
Resident Sportsman and Nonresident Combination Licenses include a Season Fishing License.				

A valid fishing license (see license requirements table above) is required for all types of fishing on state waters. To fish in Montana, most anglers need a Conservation License and a Fishing License, and also an AIS Prevention Pass, see table above. You must have your fishing license in your possession while fishing. A license on your smart phone is acceptable.

A Conservation License is needed before you can buy any fishing or hunting license. Conservation License applicants are required to provide the last four digits of their social security number in addition to the information usually requested. A valid driver's license or a valid photo ID is required to purchase a license.

A fishing license allows a person to fish for and possess any fish or aquatic invertebrate authorized by the state's fishing regulations. It is nontransferable and nonrefundable. The license enables one to fish from March 1 through the end of February of the following year.

The AIS Prevention Pass is required for all individuals who fish in Montana. This program initiated by the 2017 Montana Legislature and signed into law by Gov. Steve Bullock helps fund the fight against aquatic invasive species in Montana.

**Resident Licenses:** To qualify for a resident license, a person must meet the criteria set out in MCA 87-2-102 and 202. To be a legal resident eligible to purchase a resident

fishing license, you must have physically been living in Montana for at least 180 consecutive days (six months) immediately before purchasing any resident license; you must file Montana state income tax returns as a resident, if you are required to file; you must have registered your vehicles in Montana; if you are registered to vote, you must be registered in Montana; and you may not possess or apply for any resident hunting, fishing or trapping privileges in another state or country. At the time of purchase, a person must present a valid Montana driver's license, a valid Montana driver's examiner's identification card, or a tribal identification card. If unsure of your residency status, contact a regional FWP office.

## Special Fishing Licenses

**Paddlefish:** All anglers must purchase a Paddlefish tag to fish for Paddlefish. To purchase a tag, all anglers must have a valid Conservation License, an AIS Prevention Pass and a Fishing License. Limit of one Paddlefish tag (one fish) per person:

**Resident - \$6.50 each      Nonresident - \$15 each**

Paddlefish harvest only tags will be available via lottery draw (\$5 drawing fee) for the Upper Missouri River Paddlefish season (White Tag) only. Anglers need to apply individually or as a party (up to five people) before 5pm March 27, 2021. See page 82 for specifics on the Upper Missouri Paddlefish drawing.

**Bull Trout:** Hungry Horse Reservoir, Lake Koocanusa and part of the South Fork Flathead River are open for a regulated and experimental Bull Trout angling season. When fishing for Bull Trout each angler must have in possession a valid Bull Trout Catch Card for the specific water he/she is fishing. Anglers may select only one of the following areas: A) Lake Koocanusa, or B) Hungry Horse Reservoir and South Fork Flathead River. Swan Lake is open to angling for Bull Trout without a special permit but no harvest is allowed. All other waters are closed to intentional angling for Bull Trout year around.

Catch Cards are free of charge and are available at the FWP Region 1 office in Kalispell and at the US Forest Service Spotted Bear Ranger Station. Applications for a catch card are available at the FWP Region 1 office or online at [fwp.mt.gov/fish/license/](http://fwp.mt.gov/fish/license/). Completed applications must be presented at the regional headquarters or mailed to FWP Bull Trout Permit, 490 North Meridian, Kalispell MT 59901.

### Free Fishing Weekend Father's Day June 19-20, 2021.

By Montana law, each year on Father's Day weekend any person (resident or non-resident) may fish for any fish within this state without obtaining a fishing license as long as they abide by the seasons, restrictions and bag limits listed in these Fishing Regulations. The two exceptions to this are Paddlefish and Bull Trout fishing, both of which require the purchase of a Conservation, Fishing, and AIS Prevention Licenses. Fishing for Paddlefish also requires a Paddlefish tag. A catch card is required to fish for Bull Trout.

**Montana Resident With Disability:** Montana FWP seeks to ensure that its programs, services and activities are accessible to persons with disabilities. Montana FWP provides many representative recreational opportunities. To learn more or to request modifications or accommodations relative to a disability, contact FWP at 406-444-2449.

- Resident Person With a Disability must purchase a **Conservation License - \$8**, an **AIS Prevention Pass - \$2** and a **Fishing License - \$10.50**. To qualify a person must be permanently and substantially disabled. Applications are available on the FWP website however, they can only be certified at a regional FWP office or by mail.
- Lifetime Fishing License for the Blind - \$10 plus an annual \$2 AIS Prevention Pass. Visit the FWP website for an application.

**Veterans Administration Patients:** Permits are available for patients residing at VA Hospitals and residents of State institutions, except the State penitentiary. These free permits are available on-site at the VA Hospital or State institution. Contact Enforcement 406-444-2452.

**Legion of Valor:** A Conservation License allows both residents and nonresidents, regardless of age, to fish. Legion of Valor membership card required to qualify. Available only at FWP offices.

**Care Facility:** The manager or director of an eligible facility licensed in Montana may apply for permission to take supervised residents fishing during activities  
Visit [fwp.mt.gov/fish](http://fwp.mt.gov/fish) 13

approved by the facility. Licensed facilities include long-term care, personal care, home for persons with developmental disabilities and home for persons with severe disabilities. Contact Enforcement 406-444-2452.

**Education Exemptions:** Free Fishing License exemptions are available for qualified educational events and fishing clinics. For information on these free educational exemptions, call 406-444-9943.

**Purple Heart:** Residents who have been awarded a Purple Heart, regardless of age, may fish and hunt upland game birds with a Conservation License issued by the Department.

- Nonresidents who have been awarded a Purple Heart, regardless of age, may fish and hunt upland game birds with a Conservation License issued by the Department during expeditions arranged by a nonprofit organization that uses fishing and hunting as part of rehabilitation.
- Verification of Purple Heart and DD 214 Form required to qualify. Residents only available at FWP offices. Nonresidents only available at FWP Headquarters in Helena.

## Penalties for Violations of the Law

Most fish and game violations are misdemeanors that are punishable by a fine not to exceed \$1,000 and imprisonment for not longer than six months. The court may also order the forfeiture of any current hunting, fishing and trapping licenses and the privilege to hunt, fish and trap, or use state lands for recreational purposes for a period set by the court.

Taking an over limit of fish will result in a fine plus restitution to the state for each fish over the limit. Restitution for Bull Trout may be up to \$500 per fish and for river Arctic Grayling, White Sturgeon, and Paddlefish restitution is \$300 per fish.

### It is Unlawful and a Misdemeanor:

- To violate any regulations listed in this booklet.
- To introduce any fish or viable fish eggs into any waters without FWP permission.
- To refuse to show one's fishing license upon demand.
- To refuse to show one's fish upon demand.
- To loan or transfer your fishing license or tags to any person.
- To sell game fish except as prescribed by F&W Commission regulations.
- To leave or dump any dead animal, fish, garbage or litter in or on any state, federal or private property where public recreation is permitted.
- To stun or kill fish by using any carbide, lime, giant powder, dynamite, or other explosive compounds, or any corrosive or narcotic poison. To possess these substances within 100 feet of any stream where fish are found is unlawful.
- To hire or retain an unlicensed outfitter or guide.
- To waste any part of game fish suitable for food (see Waste of Fish or Game definition on page 93).

### Penalties of Unlawful Introductions

- Fines of \$2,000 up to \$10,000 and imprisonment for up to one year.
- Liability for all costs to eliminate or mitigate the effects of the violation.
- Loss of hunting, fishing and trapping privileges for at least 5 years.

**Montana Stream Access Law:** Under the Montana Stream Access Law, the public may use rivers and streams for recreational purposes up to the ordinary high water marks. Although the law gives recreationists the right to use rivers and streams for water-related recreation, it does not give them the right to enter private lands bordering those streams or to cross private lands to gain access to streams without landowner permission.

**FWP recommends that recreationists obtain landowner permission to cross private land to access a stream. Complete rules are available at any FWP office.**

**Montana Trespass Law:** Montana's trespass law states that a member of the public has the privilege to enter private land only:

- With the explicit permission of the landowner or his/her agent, or
- When the landowner has failed to post a no-trespassing notice or mark legal accesses with 50 square inches of orange.

## General Information For Anglers

**Catch-and-Release Angling:** Waters designated catch-and-release for one or more species of fish require that those fish be released alive promptly, with little or no delay. Before you start fishing in these waters, consider the following in order to give the fish you release the best possible chance to survive: 1) Artificial lures are preferred over bait to reduce deep hooking and catch-and-release mortality; 2) Single hooks are preferred over treble or multiple hooks because they are easier and quicker to remove; 3) Barbless hooks are recommended over barbed hooks because they are easier to remove and reduce release time; 4) Heavier gear is preferred over lighter gear because it makes it easier to land fish; and 5) Rubber or neoprene nets are preferable because they are less likely than nylon nets to catch hooks which increases release time.

**Fishing From Boats/Vessels, Float Fishing and Float Outfitting** are regulated on some rivers and streams (see District Exceptions for regulated waters). These regulations apply as follows:

- When a water is closed to **“Fishing From Boats/Vessels,”** an angler may not fish while on any boat or vessel. However, an angler may use a boat or vessel to access wade fishing opportunities. The angler must be completely out of the boat or vessel while wade fishing.
- When a water is closed to **“Float Fishing,”** an angler may not fish from a boat or vessel, and may not wade fish in the river or stream, or from the bank or shoreline of the river or stream, when fishing access is gained by boat or vessel.
- When a water is closed to **“Float Outfitting,”** the operation of any boat or vessel for the commercial purpose of float fishing by a fishing outfitter or fishing guide is prohibited.

### River Etiquette

- Be aware that boat access areas can be busy places; you may wish to fish in a location that is less congested.
- Do not encroach on another angler’s space. Use the “visual rule of crowding” and attempt to keep out of sight of other anglers, if at all possible.
- Try not to monopolize a good fishing spot on the river. Fish for a while, then move on.
- Boats should always yield to wade anglers, however, there are instances when the wading angler should yield to floaters, such as when there is no other channel for the floaters to navigate.
- When possible, avoid using the streambed as a pathway. This type of foot traffic can cause damage to the fragile aquatic habitat. Anglers should use the shoreline to travel from one point to the other, if doing so does not violate trespass and stream access laws.

**Fishing Methods:** Fish may be taken only by hook and line or other approved methods. Regulations for the taking of fish are listed in the standard regulations for each fishing district (see pages 21, 49 & 76).

### Releasing Fish

#### To ensure a released fish has the best chance for survival:

- Play the fish as rapidly as possible. Do not play it to total exhaustion.
- Keep the fish in water as much as possible when handling and removing the hook.
- Remove the hook gently. Do not squeeze the fish or put your fingers in its gills. There are release devices available from most sporting/fishing stores to assist you, and the use of barbless hooks makes releasing fish easier.
- Set the hook quickly to avoid deep hooking the fish. If the fish is deeply hooked and must be released by regulation, cut the line inside the mouth opening. Do not yank the hook out, as some fish will survive with hooks in them. Anglers should strongly consider keeping fish deeply-hooked in the throat or gills if allowed by regulations on that waterbody.
- Release the fish only after it has gained its equilibrium. If necessary, gently hold the fish upright in the current facing upstream and move it slowly back and forth.
- Release the fish in quiet water close to the area where it was hooked.

**Lake/Reservoir fishing from boats:**

- Fish caught from deep water may be unable to vent their air bladder and may “bloat.” Puncturing the air bladder or “fizzing” is not recommended because it may cause infections. A simple release tool will facilitate releasing the fish in deep water and recompressing it quickly. All you need is a 50-foot cord, a weight and a hook. Dull the hook, flatten the barb and attach the hook inline just above the weight with knots at the hook eye and bend. The hook should be pointing down toward the weight. Place the hook over the lower jaw of the fish and let the weight drop, pulling the fish down rapidly. A tug on the cord will release the fish.

**Disposal of Dead Fish and Fish Entrails:** When you are in a boat on the water and fishing, it is acceptable to dispose of fish entrails in deep water in the lake, reservoir or river. When you are near or on the shore or bank, it is recommended that you bag all fish remains and dispose of the bag in an appropriate garbage receptacle. Help keep the shoreline clean for others. It is unlawful to discard game fish; however, dead non-game fish may be treated like fish entrails for disposal purposes (puncture the bladder first so the fish will sink).

**Check Stations:** Anglers and hunters are required to stop as directed at all designated check stations on the way to and from fishing and hunting areas, even if they have no fish or game to be checked.

**Family Fishing Waters:** Numerous waters across the state provide excellent fishing opportunities for young anglers. A few waters have been set aside exclusively for the use of young anglers. Waters posted as Family Fishing Waters are open to fishing during the entire year to persons 14 years of age and younger only with the exception of Indian Road Pond near Townsend (see District Exceptions). One rod allowed per child. There are 65 Family Fishing Waters in Montana. Check the FishMT tab on the FWP website for all Family Fishing Waters.

**Federal Wildlife Refuges:** Certain waters on Federal Wildlife Refuges may have special rules. Specific information may be obtained from the headquarters of the federal refuge involved.

**Measuring Fish:** Measure the greatest length from the tip of the nose to the tip of the tail. Place the fish on a flat surface and squeeze the lobes of the tail fin together so as to achieve the greatest length. Do not measure over the curve of the body.

**Tagged Fish:** It is legal to harvest a radio tagged fish, however, the radio tag must be returned to FWP. If you catch a tagged fish, please report the following information to any Fish, Wildlife & Parks office or online at [fwp.mt.gov/fish/anglingData/taggedFishForm.html](http://fwp.mt.gov/fish/anglingData/taggedFishForm.html)

1. The tag's number and color;
2. The date the fish was caught;
3. The species of the fish;
4. The fish's length and weight (close as possible);
5. Location of the catch (the body of water and distance from nearest landmark);
6. Whether the fish was kept or released; and
7. The name, address, and email address of the angler.

## Sport Fish Consumption Guidelines

The Montana Department of Public Health and Human Services (DPHHS) has issued advisories for the consumption of fish from certain Montana waters. Fish from some Montana waters contain levels of chemicals that may be especially harmful to young children, nursing mothers, and childbearing women or persons frequently consuming fish. Information, advice and additional details about fish consumption is available from the DPHHS, telephone 406-444-2837. This information is also available in a brochure titled "Montana Sport Fish Consumption Guidelines" which can be obtained at any FWP office and many license providers, or on the FWP website at: [fwp.mt.gov/fwpDoc.html?id=28187](http://fwp.mt.gov/fwpDoc.html?id=28187)

Waters with a fish consumption advisory and an exception to the standard fishing regulations are identified with a fish icon to help you identify places to pay special attention to when harvesting fish.

### General Guidelines to Reduce Your Health Risk

- **Keep smaller fish for eating.** They typically taste better and have had less time to accumulate contaminants than older, bigger fish.
- **Eat smaller meals when you eat big fish and eat them less often.**
- **Eat fish that are less likely to be contaminated.** Contaminants such as mercury and PCBs build up in large predatory fish such as Walleye and Lake Trout. Their prey, such as Yellow Perch and Rainbow Trout, have less contaminants.
- **Clean and cook your fish properly.** Trim fish to remove fatty portions. Cook fish in a way that drains juices away from the meat.

The following waterbodies contain fish species with consumption advisories. More detailed information is available on the FWP website: [fwp.mt.gov/fwpDoc.html?id=28187](http://fwp.mt.gov/fwpDoc.html?id=28187)

Alder Gulch	Cooney Reservoir	Lake Frances	Noxon Rapids Reservoir

# AIS Waterbody Monitoring

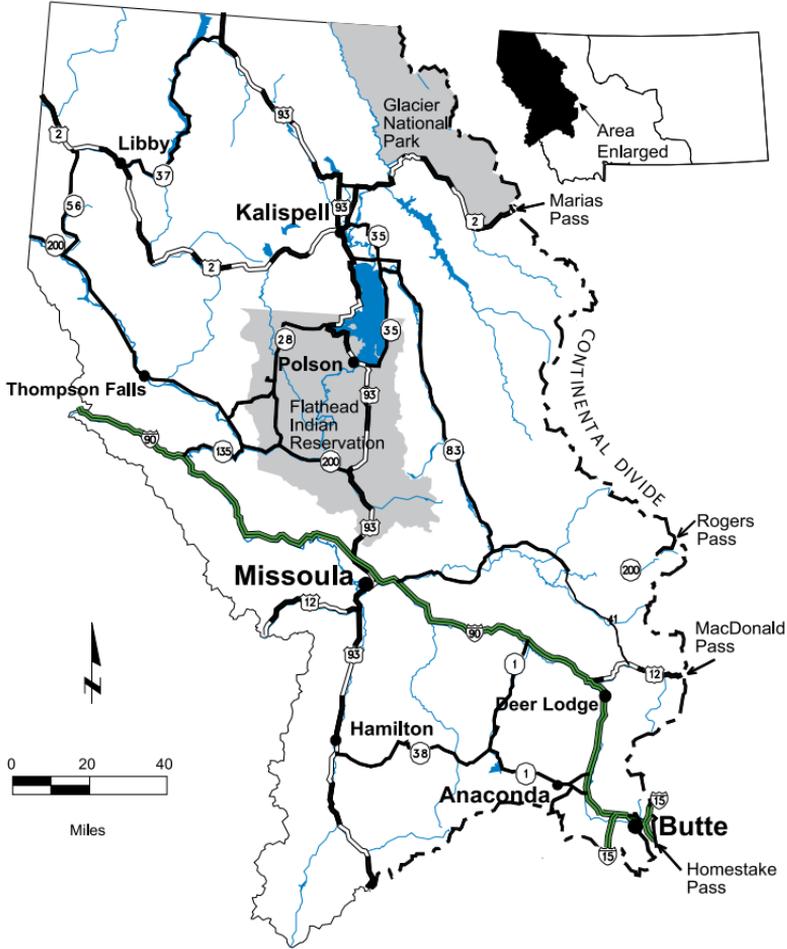

FWP annually monitors waterbodies statewide to detect invasive aquatic plants and invertebrates. The table below summarizes all waterbodies where AIS have been detected. When boating, fishing, or recreating on any waterbodies in Montana, always CLEAN, DRAIN, AND DRY all watercraft, trailers, and gear to stop the spread of AIS.

Waters with Aquatic Invasive Species present and are listed in exceptions to the standard fishing regulations are identified with an AIS stop sign symbol

Western Fishing District

Areas excluded from fishing districts.  
 Additional regulations may apply.  
 Other federal or tribal permits may be required.

**The Western Fishing District includes all waters in Montana west of the Continental Divide.**

**Columbia River Basin – Inspection Prior to Launch:** All watercraft crossing the Continental Divide into the Columbia River Basin are required to be inspected prior to launch.

For additional information about fishing in this district, please call the following regional headquarters Monday-Friday 8:00 a.m. - 5:00 p.m.:

- Kalispell** .....406-752-5501
- Missoula** .....406-542-5500
- FWP Headquarters**.....406-444-2449
- Hearing Impaired (use Montana Relay)**.....7-1-1 or 1-800-253-4091

## Western District Standard Regulations

**Beaver Ponds:** Beaver ponds on streams are governed by the same regulations that govern the streams.

**Boat and Motor Restrictions:** All passengers under the age of 12 must wear a personal flotation device (PFD) at all times when the boat is in motion if the boat is less than 26 feet long. A wearable, U.S. Coast Guard approved PFD must be available for each occupant of any boat.

**Closed Waters:** Waters operated as fish hatcheries and rearing ponds by FWP and the US Fish and Wildlife Service shall be closed to fishing at all times. Waters in which FWP operates fish traps and other structures are closed to fishing as posted. Certain water-supply lakes, streams and hazardous areas are also closed as posted.

**Dam Closures and Use Restrictions:** In the interest of public health and safety, certain areas above and below most dams are closed to the public. These restrictions include areas where no public access is allowed below the ordinary high-water mark. The restricted areas are identified and delineated by signs and/or boat restraining systems.

The following dams are closed to all boating, sailing, floating, swimming, fishing or other recreational activity as marked by boat restraining systems or as posted to restrict access. Other dams not listed here may also be posted for restricted access. For more information call the FWP Fishing Access Coordinator at 406-444-2449, or contact the Army Corp of Engineers (ACOE) 406-293-7751, x255, AVISTA 1-800-227-9187, Bureau of Reclamation (BOR) 406-387-5241, CSKT 406-883-2888, Northwestern Energy (NWE) 888-467-2669 or PacificCorp Energy 503-813-6666.

Big Fork Dam (PacifiCorp, Lake County)	Libby Dam (ACOE, Lincoln County)
Hungry Horse Dam (BOR, Flathead County)	Noxon Rapids Dam (AVISTA, Sanders County)
Kerr Dam (CSKT, Lake County)	Thompson Falls Dam (NWE, Sanders County)

**Flathead Indian Reservation:** A tribal permit is required to fish on waters within the boundary of the Reservation. Call tribal headquarters at 406-675-2700 for information.

**Irrigation Canals and Ditches:** Man-made irrigation canals and ditches are open to fishing year round unless stated otherwise in exceptions to standard regulations. The same daily and possession limits apply to them as for rivers/streams. Anglers need to be aware that the Montana Stream Access Law does not apply to canals and ditches. Under Montana's trespass law, permission to access these waters is implied if the land is not posted, but that implied permission may be revoked at any time. It is best to obtain the explicit permission of the landowner. Where ditches cross land belonging to others, rights of the ditch owner versus those of the landowner vary. Therefore, always obey any sign clearly marking the ditch as closed to public access or fishing.

**Reservoirs:** Under normal operations, reservoir pool elevation, surface acreage and the mouths of the inlet stream(s) are expected to vary throughout the year. An imaginary line connecting the reservoir shoreline across the mouth of the stream marks the boundary between reservoir and stream/river, and the boundary will move as reservoir levels change. Streams are defined by a sloped streambed that results in a defined current flow between two discernible stream banks. Stream regulations apply upstream from the mouth of the reservoir and often are managed under seasons, limits and special regulations that differ from the reservoir regulations.

**Sloughs:** Sloughs with surface water connecting to a river at any time during the year fall under the river regulations for that river, unless listed under the

exceptions. Sloughs with no surface water connecting to a river at any time during the year fall under standard lake limits unless listed under the exceptions.

**Transporting Live Fish:** An import permit is required to bring live fish into Montana (see page 89). It is unlawful to possess or transport live fish away from the body of water in which the fish were taken except for transportation of fish for valid (approved) commercial purposes or as authorized by FWP.

## Methods of Taking Fish

- A valid fishing license is required for all types of fishing.
- Spears and bows count as lines for purposes of determining line limits.
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or name and ALS number attached.

### Hook and Line Limits

#### Open Water

##### Rivers and Streams

- 1 line with 2 hooks per line, with or without a rod. The rod or line must be attended and in the angler's immediate control.

##### Lakes and Reservoirs

- 2 lines with 2 hooks per line, with or without a rod. Each line must be attended and in the angler's immediate control.

#### Ice Fishing

##### Lakes and Reservoirs

- 2 lines with 2 hooks per line on all lakes and reservoirs open to fishing. When a line is used through the ice, the angler need not be in immediate control but must be in the vicinity and in visual contact with the line.

##### Size of Hole

- In waters not open to spearing, the maximum size hole that may be used for ice fishing is 144 square inches or 12 inches in diameter.
- There is no size limit for a hole used for fishing with a spear.

**Shelters:** It is unlawful to use any ice fishing shelter not conforming to the following rules:

**Definition/Use:** Any hut or enclosure constructed of any material, except ice or snow, for the purpose of ice fishing.

**Identification:** Identification must be painted on or otherwise affixed to all unattended shelters in legible, 2-inch letters plainly visible at a distance of 100 feet. Identification must include the owner's name and address, name and phone number, or 9/10-digit ALS number. Attended shelters at Brown's Lake and Georgetown Lake must also be identified.

**Inspection:** Each closed shelter shall have a door that an officer may readily open from the outside for inspection when it is occupied.

**Waste and Rubbish Disposal:** Owners and occupants of shelters are required to keep their shelters (and the area immediately around them) free from rubbish and trash. Anglers must remove waste materials before they leave for the day.

**Removal:** Daily removal of shelters is required on:

Browns Lake (near Ovando)

Echo Lake (near Anaconda)

Georgetown Lake

**Removal After the Season:** The owner of an ice fishing shelter shall remove it from the ice before it becomes irretrievable at the end of the season, or within five days from receipt of notification from FWP to remove the shelter.

**Bow and Arrow:** All waters are closed to bow-and-arrow taking of game and non-game fish, except as noted under District Exceptions.

**Crossbows:** Unlawful.

**Nets and Traps:** Landing nets may be used for landing hooked fish. See Bait Regulations for use of nets to harvest bait fish.

**Setlines:** Setlines (unattended lines) are not allowed in the Western Fishing District.

**Snagging:** All waters are closed to snagging of game and non-game fish, except as otherwise noted under District Exceptions.

**Spearing:** All waters are closed to spearing of game and non-game fish except as otherwise noted under District Exceptions.

## Bait Regulations

- Game fish, including Yellow Perch, may not be used as bait except as authorized below under Dead Bait.
- Possession of live fish or use of live fish as bait is prohibited in the Western Fishing District.
- It is unlawful to release live bait of any kind into Montana waters; do not empty any live bait containers at your fishing site.
- Non-game fish except Sculpins (genus *Cottus*), Carp, Goldfish and Rainbow Smelt may be taken for use as dead bait in the following manner:
  - with hook and line; or
  - with seines no larger than 12 feet by 4 feet; or
  - with minnow traps (the dimensions shall not exceed 24 inches x 12 inches x 12 inches); or
  - with cast nets (maximum 6-foot radius) and dip nets (no larger than 3 feet x 3 feet).
- See Commercial Fishing License requirements for information on commercial harvest permits.
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or name and ALS number attached.

### Dead Bait

- Non-game fish that are freshly killed or have been preserved by freezing, salting or pickling may be used whole or in pieces as bait on all waters not restricted to artificial lures only. Sculpins (genus *Cottus*) may not be used as bait, live or dead, in the Western Fishing District.
- Whole game fish may not be used as bait.
- Parts/pieces of Bass, Burbot (Ling), Black Crappie, Northern Pike, or Yellow Perch may be used as bait if edible portions are not wasted.
- The eggs of Char, Cisco, Arctic Grayling, Salmon or Trout may be used as bait. Other parts/pieces of Salmonids may not be used as bait.

### Live Bait

- Live bait fish may not be imported into Montana without authorization from FWP (see page 89).
- Live animals such as meal worms, red worms, night crawlers, leeches, maggots, crayfish, reptiles, amphibians and insects may be used as bait on all waters not restricted to artificial lures only.
- Leeches may only be imported into Montana from FWP-approved leech dealers. Anglers who import leeches must have in their possession a bill-of-sale (a receipt) from the approved out-of-state leech dealer when fishing with leeches in Montana. A list of approved out-of-state leech dealers may be obtained from FWP by calling 406-452-6181.
- No fish species may be used as live bait in the Western Fishing District.

## General Regulations

**Possession limit** means the number of fish that you may possess at any time in any form: fresh, stored in freezers or lockers, salted, smoked, dried, canned or otherwise preserved. It is unlawful to preserve fish (salted, smoked, dried, canned, or otherwise preserved) before taking them to your permanent residence (the physical abode or structure you maintain as your principal, legal residence) unless those fish can be counted. Mobile recreational vehicles, travel trailers, tents or storage/freezer lockers do not qualify as permanent residences. No person may sell or take for the purpose of sale any fish except as authorized in commercial fishing regulations.

**Daily limit** means the number of fish you may legally take during a calendar day. It is unlawful to exceed the standard daily limit unless the regulations for the water body where you are fishing specify a different limit. "Legally taken" means fish caught and not immediately released alive. Where catch-and-release is allowed, fish immediately released alive are considered not taken. A fish when landed and not immediately released becomes part of the daily limit of the person originally hooking the fish, even if the fish is donated to another person. If you receive fish from another angler, those fish also become part of your daily limit. You may possess the daily limit allowed only for the body of water on which you are fishing.

### Handling and Transporting Legally Taken Fish

While a person is fishing, or while on the water or on the ice:

- All fish in possession must be visibly identifiable to species.
- All fish in possession must be whole with head, skin, fins and tail attached. Gills and entrails may be removed (see Disposal of Dead Fish and Fish Entrails on page 16).
- This doesn't prohibit the consumption of fish on the ice or water. However, the fish consumed are part of your daily limit.

Once off the water or ice, fish may be dressed and filleted for transport to your permanent residence, unless size limits apply, under the following conditions:

- All fish can be counted and identified. Two fillets will be counted as one fish. If the catch is frozen prior to transport, each fish or fillet must be packaged so it can be counted.
- Salmonids (Trout, Salmon, Arctic Grayling, Char and Whitefish): the entire skin must be attached to the fillet for identification.

## General Fishing Seasons and Hours

### Fishing Hours

- Fishing is allowed at all hours during open fishing seasons unless otherwise specified in District Exceptions to Standard Regulations.

### Fishing Season: Rivers and Streams

- Open third Saturday in May through November 30 unless otherwise specified in District Exceptions to Standard Regulations.

### Fishing Season: Lakes and Reservoirs

- Open entire year unless otherwise specified in District Exceptions to Standard Regulations.

2021 GENERAL FISHING SEASON		
Western District	Rivers and Streams	Lakes and Reservoirs
	Open third Saturday in May through November 30, unless otherwise specified in Exceptions to Standard Regulations.	Open all year
If you don't find the water you are looking for listed in the district exceptions, use the standard regulations for the district you are fishing in.		

## Western District Standard Daily and Possession Limits

Each angler may take all of the limits listed in the chart, unless otherwise noted in the Western District Exceptions. For species not listed, there are no limits on the number of fish that may be taken or possessed. Check for exceptions to the standard regulations in the following pages.

Anglers who move from one fishing water to another may possess the limit of fish allowed only for the water on which they are currently fishing.

	Species	Daily and Possession Limits
T R O U T	Brook Trout	20 daily and in possession.
	Bull Trout	All waters are closed to angling for Bull Trout and all fish must be released promptly, with little or no delay unless otherwise authorized in the Western District Exceptions. See Special License Requirements on page 13. Note: Federal rules prohibit the attempted take of Bull Trout unless specifically authorized by state or tribal regulation.
	Combined Trout includes Brown Trout, Rainbow Trout, Golden Trout, and Arctic Grayling	Lakes/Reservoirs: 5 daily and 10 in possession, only 1 over 22 inches daily and in possession.  Rivers/Streams: 5 daily and in possession, only 1 over 14 inches.
	Cutthroat Trout (see page 96 for ID key)	Lakes/Reservoirs: 3 daily and in possession, no size limit. Rivers/Streams: 3 daily and in possession, none over 12 inches.
	Lake Trout	20 daily and 40 in possession.
	Largemouth Bass	5 daily and in possession only 1 greater than 12 inches. Third Saturday in May through June 30: 1 daily and in possession, must be over 22 inches.
	Smallmouth Bass	15 daily and in possession, no size limit all year.
	Burbot (Ling)	2 daily and in possession.
	Crappie	<b>No limit.</b>
	Kokanee Salmon	20 daily and 40 in possession.
	Northern Pike	15 daily and in possession.
	Sturgeon	0 - All waters are closed to angling for Sturgeon. Captured Sturgeon must be released immediately.
	Whitefish	20 daily and 40 in possession.
	Walleye	<b><i>All Walleye caught must be killed immediately, kept and the entire fish turned into FWP. Anglers who catch Walleye in the Western Fishing District are required to report the catch to FWP within 24 hours (406-752-5507). Anglers will be asked to provide location, date, and time of capture and may be asked to provide their full name, ALS number, and phone number. Anglers are required to turn in the whole Walleye to a FWP office within 10 days of capture (frozen is allowed) during regular business hours. Does not include Clark Fork Reservoirs downstream of Thompson Falls Dam, see Exceptions for the Clark Fork River (page 30).</i></b>

## Western District Exceptions To Standard Regulations

Check the following list of waters for the body of water you intend to fish in the Western District. If the body of water is not found in the listing of Exceptions, all of the Western District standard seasons, daily/possession limits, and standard regulations apply. Standard regulations apply for species not listed in the Exceptions.

Waterbody/Section	Exceptions to Standard Regulations
<b>ALICE CREEK (tributary to Blackfoot River)</b> -----	<ul style="list-style-type: none"> <li>• Catch-and-release for Cutthroat Trout.</li> <li>• Combined trout: 3 daily and in possession, only 1 Rainbow Trout over 14 inches, any size Brown Trout.</li> </ul>
<b>ANACONDA SETTLING POND SYSTEM</b> -----	<ul style="list-style-type: none"> <li>• See Warm Springs Wildlife Management Area.</li> </ul>
<b>ASHLEY LAKE</b> -----	
<b>Entire lake</b>	<ul style="list-style-type: none"> <li>• Salmon: 35 daily and 70 in possession.</li> </ul>
<b>Inlet tributaries</b>	<ul style="list-style-type: none"> <li>• Closed entire year.</li> </ul>
<b>BEAR CREEK (tributary to Middle Fork Flathead River)</b> -----	<ul style="list-style-type: none"> <li>• Angling is closed within 150-yard radius of the stream mouth June 1 through September 30.</li> </ul>
<b>BEAVER CREEK (tributary to Blackfoot River)</b> -----	<ul style="list-style-type: none"> <li>• Catch-and-release for Cutthroat Trout.</li> <li>• Combined trout: 3 daily and in possession, only 1 Rainbow Trout over 14 inches, any size Brown Trout.</li> </ul>
<b>BELMONT CREEK (tributary to Blackfoot River)</b> -----	<ul style="list-style-type: none"> <li>• Catch-and-release for Cutthroat Trout.</li> <li>• Combined trout: 3 daily and in possession, only 1 Rainbow Trout over 14 inches, any size Brown Trout.</li> <li>• Artificial lures only within 100-yard radius of mouth.</li> </ul>
<b>BIG CREEK AND TRIBUTARIES (tributary to North Fork Flathead River)</b> --	<ul style="list-style-type: none"> <li>• Closed entire year.</li> </ul>
<b>Mouth of Big Creek</b>	<ul style="list-style-type: none"> <li>• Angling is closed within 150-yard radius of the stream mouth June 1 through September 30 unless posted at a greater distance.</li> </ul>

If you don't find the water you are looking for, use the Standard Daily & Possession Limits on p.24.

## Waterbody/Section

## Exceptions to Standard Regulations

BITTERROOT LAKE (see Little Bitterroot Lake) -----

BITTERROOT RIVER (note: river flows south to north)  -----

## Fishing Regulations

**The ENTIRE Bitterroot River to include the East Fork (downstream from Star Falls) and the West Fork (downstream from Painted Rocks Dam) to the mouth of the river near Missoula. During the Extended Season (December 1 to the third Saturday in May)**

- Extended season for Northern Pike and Whitefish and catch-and-release for all trout open December 1 to third Saturday in May.
- Artificial lures, maggots and/or aquatic insects only. All other live/dead bait prohibited.

**West Fork Bitterroot River downstream from Painted Rocks Dam.**

**During General Season (third Saturday in May through November 30).**

- Catch-and-release for Cutthroat Trout and Rainbow Trout.
- Brown Trout: 3 daily and in possession.

**East Fork Bitterroot River downstream from Star Falls. During General Season (third Saturday in May through November 30).**

- Catch-and-release for Cutthroat Trout and Rainbow Trout.
- Brown Trout: 3 daily and in possession.

**Bitterroot River from confluence of East and West Forks to the north boundary of the Woodside Bridge FAS. During General Season (third Saturday in May through November 30).**

- Catch-and-release for Cutthroat Trout.
- Combined trout: 3 Rainbow or Brown Trout daily and in possession, only 1 over 14 inches.

**North Boundary of Woodside Bridge FAS to Florence Bridge. During General Season (third Saturday in May through November 30).**

- Catch-and-release for all trout.
- Artificial lures only.
- Live/dead bait prohibited.

**Florence Bridge to mouth of Bitterroot River. During General Season (third Saturday in May through November 30).**

- Catch-and-release for Cutthroat Trout.
- Combined trout: 3 Rainbow or Brown Trout daily and in possession, only 1 over 14 inches.

**Ditches, canals and sloughs between US 93 and east side highway, and between Hamilton and the Florence Bridge**

- Regulations are the same as the adjacent river section.

**Recreation Rules (see [fwp.mt.gov/recreation/permits/floating/](http://fwp.mt.gov/recreation/permits/floating/) and signs on site for more information)**

**West Fork Bitterroot River and upper Bitterroot River**

**No commercial floating or fishing June 1 to September 15 from:**

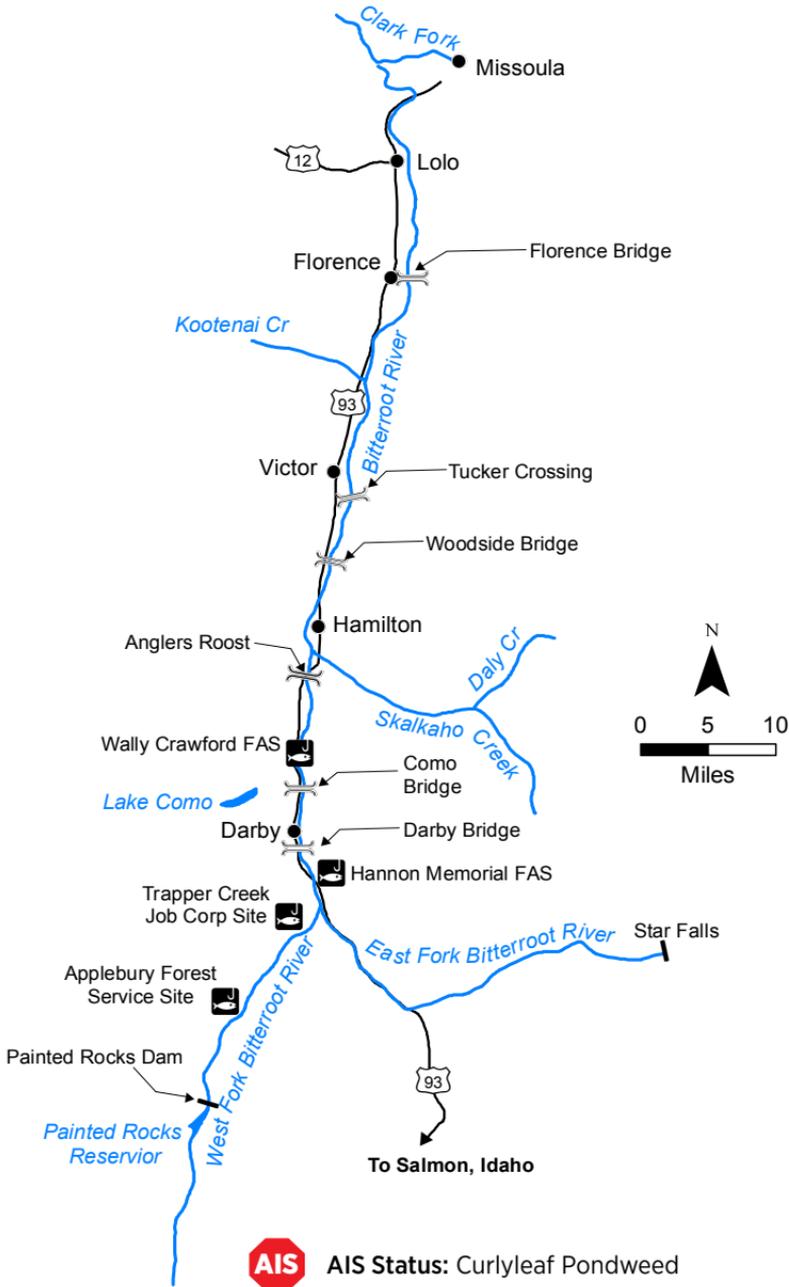

- Painted Rocks Dam to Applebury Forest Service Site on Fridays.
- Applebury Forest Service Site to Trapper Creek Job Corps site on Saturdays.
- Trapper Creek Job Corps Site on to Hannon Memorial FAS on Sundays.
- Hannon Memorial FAS to Wally Crawford FAS on Mondays.

**No floating of any kind July 1 to September 15 from:**

- Painted Rocks Dam to Applebury Forest Service Site on Fridays.

# Bitterroot River

If you don't find the water you are looking for, use the Standard Daily & Possession Limits on p.24.

**AIS** AIS Status: Curlyleaf Pondweed

Note: The Bitterroot River flows from south to north; downstream is to the north.

## Waterbody/Section

## Exceptions to Standard Regulations

**BLACKFOOT RIVER AND TRIBUTARIES** **Mainstem and all tributaries except the Clearwater River. During the General Season (third Saturday in May through Nov 30)**

- Catch-and-release for Cutthroat Trout.
- Combined trout: 3 daily and in possession, only 1 Rainbow Trout over 14 inches long, any size Brown Trout. (See Clearwater River Drainage for exception.)
- Artificial lures only within 100-yard radius of the mouths of Belmont Creek, Copper Creek, Gold Creek, Monture Creek and North Fork Blackfoot River.

**Mainstem only during the Extended Season (Dec 1 to the third Saturday in May)**

- Extended season for Mountain Whitefish and catch-and-release for trout open December 1 to third Saturday in May. Tributaries are closed to fishing during the extended season.
- Artificial lures and/or maggots only.
- All other live/dead bait prohibited.

**Mainstem from Landers Fork mouth downstream to the confluence with the Clark Fork River**

- Catch-and-release for Brook Trout. (This regulation is a result of Bull Trout being misidentified and harvested as Brook Trout. Brook Trout are very rare in this section of river whereas Bull Trout are common.)

**BLANCHARD LAKE (near Whitefish)** 

- Northern Pike: 5 daily and in possession, 4 less than 28 inches and 1 greater than 36 inches.
- Bass: 1 daily and in possession, must be over 22 inches.

**BOOTJACK LAKE (near Whitefish)**

- Open April 1 through November 30.
- Combined trout: 1 daily and in possession, 22 inch minimum.
- Artificial lures only.

**BUFFALOHEAD POND**

**Hungry Horse Dam downstream to Devil's Elbow and tributaries**

- Closed entire year.

**Devil's Elbow downstream to mouth and tributaries**

- Catch-and-release for Cutthroat Trout.
- Rainbow Trout: 5 daily and in possession.
- Extended season open December 1 to third Saturday in May with artificial lures and/or maggots only.

**SQUEEZER CREEK (tributary to Swan River)** -----

- Closed entire year.

**ST REGIS COMMUNITY PARK POND** -----

- Open to fishing for anglers 14 years of age or younger; one rod per child.
- Combined trout, including Cutthroat Trout: 1 fish daily and in possession.

**ST REGIS RIVER** -----

- Catch-and-release for Cutthroat Trout.
- Combined trout: 3 daily and in possession, only 1 Rainbow Trout over 14 inches, any size Brown Trout.
- Artificial lures only within 100-yard radius of the mouth.

**STILLWATER RIVER AND TRIBUTARIES (Flathead River drainage)** -----

- Open entire year from mouth of Sunday Creek to lower Stillwater Lake.

**STORM LAKE CREEK (tributary to Silver Lake near Anaconda)** -----

- Closed to fishing July 1 through September 30 from the Silver Lake diversion structure located near the stream mouth down to where the stream enters Silver Lake.

**STUART MILL CREEK (tributary to Georgetown Lake)** -----

- Open July 1 through November 30.
- Catch-and-release for Brook Trout.
- Combined trout: 5 daily and in possession.

## Waterbody/Section

## Exceptions to Standard Regulations

**SWAN LAKE** 

- Bull Trout: Catch-and-release only. All Bull Trout must be released promptly, with little or no delay. It is unlawful to possess a live Bull Trout for any reason.

**SWAN RIVER**

- No intentional fishing for Bull Trout.
- Catch-and-release for Cutthroat Trout.
- Closed to angling June 1 through September 30 within a 300-yard radius of the Woodward Creek and Lion Creek stream mouths, unless posted at a greater distance.

**Piper Creek Bridge downstream to Swan Lake**

- Artificial lures only.

**Swan Lake outlet downstream to the Highway 35 Bridge**

- Open entire year.

**TALLY LAKE**

- Lake Trout: 1 daily and in possession, must be over 42 inches.

**THOMPSON FALLS RESERVOIR** 

- (See Clark Fork River Mouth of Thompson River to Idaho Border)

**THOMPSON PARK POND**

- ***Catch-and-release for trout, except anglers 14 years of age or younger may take 1 trout daily and in possession; one rod per angler.***

**THOMPSON RIVER****Entire river**

- Open to fishing entire year.
- Catch-and-release for Cutthroat Trout and Rainbow Trout.
- Brown Trout: 3 daily and in possession, any size.
- Artificial lures only, except anglers 14 years of age or younger may use bait.

**TOBACCO RIVER**

- Snagging: open for Kokanee Salmon September 15 through November 30.
- Kokanee Salmon: 20 daily and 40 in possession.

**TRAIL CREEK AND TRIBUTARIES (Yakinikak, N. Fork Flathead River drainage)**

- Closed entire year downstream from mouth of Thoma Creek.

**TROUT CREEK (tributary to Clark Fork River)**

- Artificial lures only within 100-yard radius of the mouth.

**TROY POND**

- Catch-and-release for trout, except anglers 14 years of age or younger may take 1 trout daily and in possession.

**UPPER STILLWATER LAKE**

- Spearing: open for Northern Pike through the ice only.

**UPPER THOMPSON LAKE**

- Kokanee Salmon: 10 daily and 20 in possession.
- Spearing: open for Northern Pike through the ice only.

**UPSATA LAKE** 

- Catch-and-release for bass.
- Northern Pike: no limit.
- Spearing: open for Northern Pike.

## Waterbody/Section

## Exceptions to Standard Regulations

**WARM SPRINGS CREEK (near Anaconda)** -----**Upstream of Myers Dam**

- Open from the third Saturday in May through November 30.

**Myers Dam to Warm Springs Wildlife Management Area (WMA)**

- Open from the third Saturday in May through November 30 except for the section from Myers Dam downstream 50 yards which is closed to fishing July 1 through September 30.
- Extended season: catch-and-release for trout December 1 to third Saturday in May with artificial lures only.

**Warm Springs Wildlife Management Area (WMA)**

- Open entire year on Warm Springs Wildlife Management Area (WMA). (See Warm Springs WMA for additional regulations.)

**WARM SPRINGS WILDLIFE MANAGEMENT AREA (WMA)** -----**All waters**

- All ponds and canals open August 15 through September 30 including Job Corps Ponds and Ducks Unlimited Ponds.
- Catch-and-release only. (See Kid's Pond and Gravel Pit Pond for exceptions.)
- Artificial lures only. (See Kid's Pond and Gravel Pit Pond for exceptions.)
- Motorized boats/vessels prohibited.

**Job Corps Ponds (Deer Lodge County)**

- Open August 15 through September 30.
- Catch-and-release only.
- Artificial lures only.
- Motorized boats/vessels prohibited.

**Kids Pond at WSWMA Headquarters**

- Open entire year.
- Combined trout: 2 daily and in possession.
- Bait may be used.
- Open to fishing by anglers 14 years of age or younger only. One rod per child.

**Gravel Pit Pond adjacent to Highway 48**

- Open second Friday in June at 5 p.m. through November 30.
- Combined trout: 2 daily and in possession.
- Bait may be used.

**Hog Hole**

- Open May 25 through September 30. No trespassing on islands.

**Pond 3**

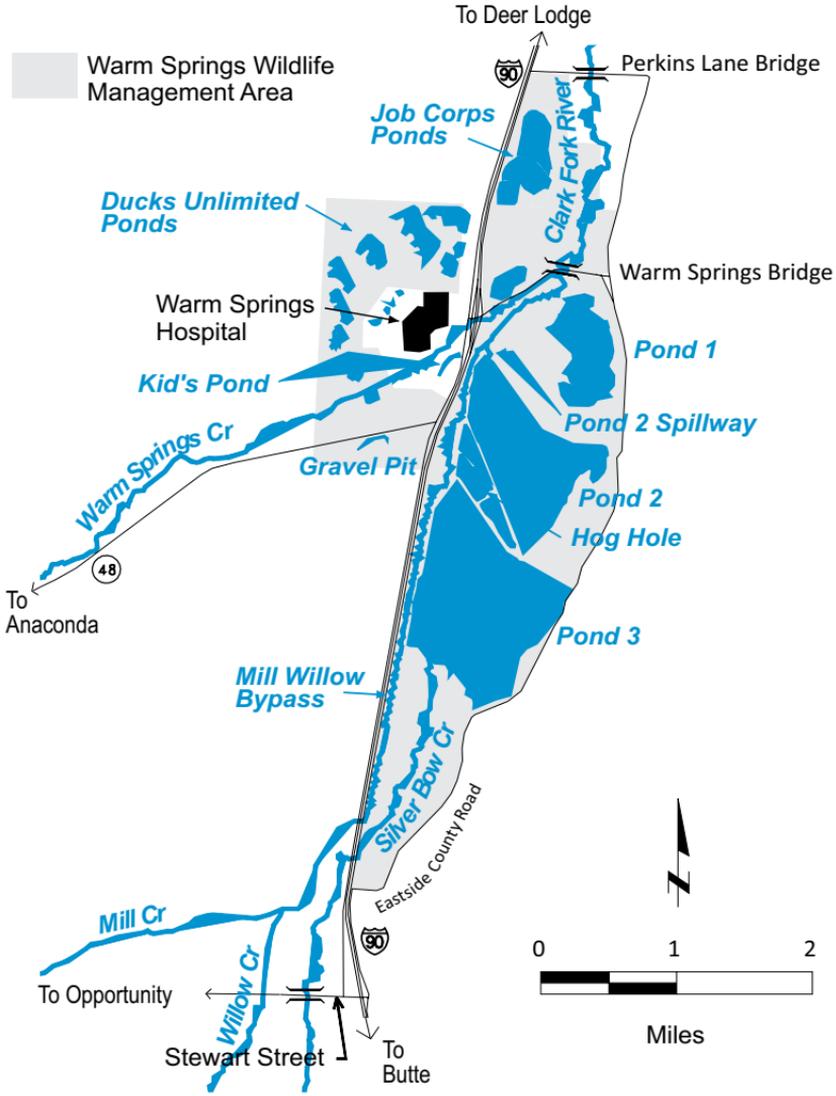

- Open May 25 through November 30 to fishing from non-motorized vessels.

**Mill-Willow Bypass, Warm Springs Creek and Clark Fork River**

- Open entire year.
- Closed to fishing from boats/vessels.

# Warm Springs WMA

If you don't find the water you are looking for, use the Standard Daily & Possession Limits on p.24.

## Waterbody/Section

## Exceptions to Standard Regulations

**WEST FORK BITTERROOT RIVER DOWNSTREAM OF PAINTED ROCKS DAM****Fishing Regulations**

- Catch-and-release for Cutthroat Trout and Rainbow Trout.
- Brown Trout: 3 daily and in possession.
- Extended season for Northern Pike and Whitefish and catch-and-release for trout from December 1 to third Saturday in May with aquatic insects, maggots and/or artificial lures only.

**Recreation Rules (see [fwp.mt.gov/recreation/permits/floating/](http://fwp.mt.gov/recreation/permits/floating/) and signs on site for more information)****West Fork Bitterroot River and Upper Bitterroot River (see map page 27)****No commercial floating or fishing June 1 to September 15 from:**

- Painted Rocks Dam to Applebury Forest Service Site on Fridays.
- Applebury Forest Service Site to Trapper Creek Job Corps Site on Saturdays.
- Trapper Creek Job Corps Site to Hannon Memorial FAS on Sundays.
- Hannon Memorial FAS to Wally Crawford FAS on Mondays.

**No floating of any kind July 1 to September 15 from:**

- Painted Rocks Dam to Applebury Forest Service Site on Fridays.

**WEST FORK CLEARWATER RIVER AND TRIBUTARIES** -----**Entire drainage**

- Artificial lures only.

**West Fork Clearwater River upstream of confluence with Marshall Creek**

- Closed entire year.

**WEST FORK THOMPSON RIVER AND TRIBUTARIES** -----

- Combined trout: 3 daily and in possession, none over 10 inches.
- Artificial lures only.

**WHALE CREEK AND TRIBUTARIES (North Fork Flathead River drainage)**

- Closed entire year downstream from Whale Creek Falls.

**WHITEFISH LAKE**  -----

- Lake Trout: 20 daily and in possession, only 1 over 36 inches. All fish 30 to 36 inches must be released.

**WHITEFISH RIVER** -----

- Open entire year from Whitefish Lake to State Highway 40 Bridge.

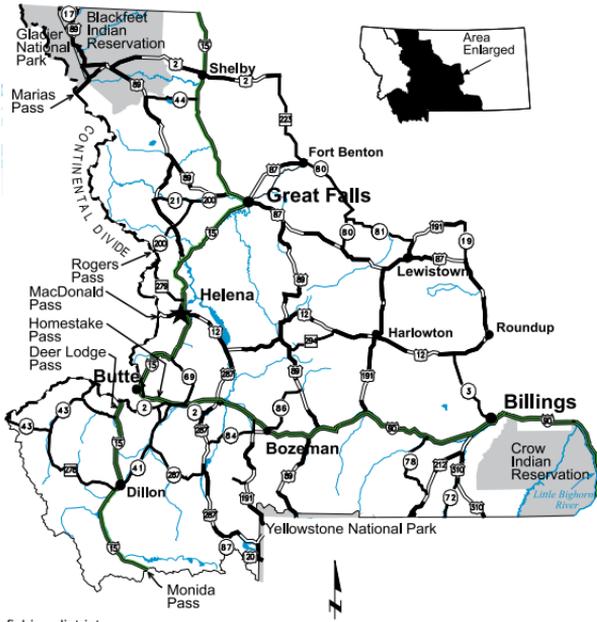

**WILLOW CREEK (near Warm Springs)**  -----**From Stewart Street Bridge to the Warm Springs WMA**

- Catch-and-release only.
- Artificial lures only.

**WOODWARD CREEK** -----

- Closed to angling within a 150-yard radius of the stream mouth June 1 through September 30, unless posted at a greater distance.

# Central Fishing District

Central District

Areas excluded from fishing districts.  
Additional regulations may apply.  
Other federal or tribal permits may be required.

**The Central Fishing District includes all waters in Montana east of the Continental Divide, (including the Belly and St Mary’s River drainages) and west of the following described boundary:** Interstate 15 from the Montana-Canada border south to its junction with Hwy 2 at Shelby, then east on Hwy 2 to Chester, then south on Hwy 223 to State Route 80 at Fort Benton, then southeasterly along State Route 80 to its junction with State Route 81, then easterly on State Route 81 to its junction with U.S. Hwy 191, then northeasterly along U.S. Hwy 191 to its junction with State Route 19, then south on State Route 19 to its junction with U.S. Hwy 87 at Grassrange, then south on U.S. Hwy 87 to its junction with U.S. Hwy 12 at Roundup, then west on U.S. Hwy 12 to its junction with State Route 3 at Lavina, then south on State Route 3 to its junction with Interstate 90 at Billings, then easterly and southerly on Interstate 90 to the first crossing of the Little Bighorn River, then southerly along the west bank of the Little Bighorn River to the Montana-Wyoming border.

**Note:** Roadways that are used as boundaries between the Central and Eastern Fishing Districts are interpreted to be in the Central Fishing District. For additional information regarding the boundaries in this fishing district, please call the following regional headquarters Monday-Friday 8:00 a.m. - 5:00 p.m.:

- Billings** ..... 406-247-2940
- Bozeman** ..... 406-577-7900
- Butte Area Office** ..... 406-494-1953
- Great Falls** ..... 406-454-5840
- Helena Area Office**..... 406-495-3260
- Lewistown Area Office** ..... 406-538-4658
- FWP Headquarters** ..... 406-444-2449
- Hearing Impaired (use Montana Relay)**.....7-1-1 or 1-800-253-4091

## Central District Standard Regulations

**Beaver Ponds:** Beaver ponds on streams are governed by the same regulations that govern the streams.

**Boat and Motor Restrictions:** A complete, updated, copy of Montana Boating Laws can be obtained from any FWP office or FWP license providers. All passengers under the age of 12 must wear a PFD at all times when the boat is in motion if the boat is less than 26 feet long. A wearable, U.S. Coast Guard approved PFD must be available for each occupant of any boat.

**Closed Waters:** Waters operated as fish hatcheries and rearing ponds by FWP and the US Fish and Wildlife Service shall be closed to fishing at all times. Waters in which FWP operates fish traps and other structures are closed to fishing as posted. Certain water-supply lakes, streams and hazardous areas are also closed as posted.

**Dam Closures and Use Restrictions:** In the interest of public health and safety, certain areas above and below most dams are closed to the public. These restrictions include areas where no public access is allowed below the ordinary high-water mark. The restricted areas are identified and delineated by signs and/or boat restraining systems.

The following dams are closed to all boating, sailing, floating, swimming, fishing or other recreational activity as marked by boat restraining systems or as posted to restrict access. Other dams not listed here may also be posted for restricted access. For more information call the FWP Fishing Access Coordinator at 406-444-2449, or contact the Bureau of Reclamation (BOR) 406-247-7298 or DNRC 406-444-2074 or Northwestern Energy (NWE) 888-467-2669.

Black Eagle Dam (NWE, Cascade Co.)	Morony Dam (NWE, Chouteau Co.)
Canyon Ferry Dam (BOR, Lewis & Clark Co.)	Rainbow Dam (NWE, Cascade Co.)
Clark Canyon Dam (BOR, Beaverhead Co.)	Ruby Dam (DNRC, Madison Co.)
Cochrane Dam (NWE, Cascade Co.)	Ryan Dam (NWE, Cascade Co.)
Hauser Dam (NWE, Lewis & Clark Co.)	Tiber Dam (BOR, Liberty Co.)
Hebgen Dam (NWE, Gallatin Co.)	Yellowtail Dam (BOR, Bighorn Co.)
Holter Dam (NWE Lewis & Clark Co.)	Yellowtail Afterbay Dam (BOR, Bighorn Co.)
Madison Dam (NWE, Madison Co.)	

**Irrigation Canals and Ditches:** Man-made irrigation canals and ditches are open year round unless stated otherwise in exceptions to standard regulations. The same daily and possession limits apply to them as for rivers/streams. Please refer to "Irrigation Canals and Ditches" on page 20 for more details.

**Reservoirs:** Under normal operations, reservoir pool elevation, surface acreage and the mouths of the inlet stream(s) are expected to vary throughout the year. An imaginary line connecting the reservoir shoreline across the mouth of the stream marks the boundary between reservoir and stream/river, and the boundary will move as reservoir levels change. Streams are defined by a sloped streambed that results in a defined current flow between two discernible stream banks. Stream regulations apply upstream from the mouth on the reservoir and often are managed under seasons, limits and special regulations that differ from the reservoir regulations.

**Transporting Live Fish:** An import permit is required to bring live fish of any kind into Montana (see page 89). It is unlawful to possess or transport any live fish away from the body of water in which the fish were taken with the following exceptions:

- 1) **Possession and transport of live** fish for authorized commercial purposes (e.g. Commercial Bait Seining Permit, Commercial Fish Ponds, Commercial Fishing, **permitted Fishing Contests**);
- 2) Use of live bait subject to restrictions for the taking, **possession**, transport and use of live bait (see "Bait Regulations" on page 50);
- 3) It is unlawful to possess or transport live fish, other than **live non-game bait fish**, on roadways that form the boundary between the Eastern and Central fishing districts.

## Methods of Taking Fish

- A valid fishing license is required for all types of fishing.
- Spears and bows are counted as lines for purposes of determining line limits.
- When multiple lines are allowed on a body of water, the maximum number of lines allowed shall not exceed the greater of either the attended lines or the setlines. For example, if an angler wants to spear for Northern Pike on Lake Frances in the winter (where the limit is 2 attended lines all year or 6 setlines through the ice), he/she may have a maximum of only 5 setlines in use if he/she is using one spear, for a total of 6 lines.
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or name, date-of-birth and ALS number attached.

## Hook and Line Limits

### Open Water

#### Rivers and Streams

- 1 line with 2 hooks per line, with or without a rod. The rod or line must be attended and in the angler's immediate control.

#### Lakes and Reservoirs

- 2 lines with 2 hooks per line. All lines must be attended and in the angler's immediate control.

### Ice Fishing

#### Lakes and Reservoirs

- 2 lines with 2 hooks per line through the ice on lakes, reservoirs, or ponds open to fishing. When a line is used through the ice, the angler need not be in immediate control, but must be in the vicinity and in visual contact with the line.

#### Size of Hole

- In waters not open to spearing, the maximum size hole that may be used for ice fishing is 144 square inches or 12 inches in diameter.
- There is no size limit for a hole used for fishing with a spear.

**Shelters:** It is unlawful to use any ice fishing shelter not conforming to the following rules:

Definition/Use: Any hut or enclosure constructed of any material, except ice or snow, for the purpose of ice fishing.

Identification: Identification must be painted on or otherwise affixed to all unattended shelters in legible, 2-inch letters plainly visible at a distance of 100 feet. Identification must include the owner's name and address, name and phone number, or 9/10-digit ALS number. Attended shelters at Clark Canyon Reservoir, Deadman's Basin, Hauser Reservoir, Lake Frances and Lake Helena must also be identified.

Inspection: Each closed shelter shall have a door that an officer may readily open from the outside for inspection when it is occupied.

Waste and Rubbish Disposal: Owners and occupants of shelters are required to keep their shelters (and the area immediately around them) free from rubbish. Anglers must remove waste materials before they leave for the day.

Daily Removal: Daily removal of shelters is required on Fitzpatrick Lake, Deadmans Basin and Helena Valley Regulating Reservoir.

Removal After the Season: The owner of an ice fishing shelter shall remove it from the ice before it becomes irretrievable at the end of the season, or within five days from receipt of notification from FWP to remove the shelter.

**Bow and Arrow:** Waters open to angling are open to taking non-game fish with bow and arrow unless otherwise noted in the exceptions to the standard regulations.

**Crossbows:** Unlawful.

**Nets and Traps:** Landing nets may be used for landing hooked fish. See Bait Regulations on page 50 for use of nets to harvest bait fish.

### Setlines

- Setlines may be used only on waters specified in District Exceptions.

- Setlines must be checked by the angler at least once every 24 hours.
- The angler's name and phone number or name and 9/10-digit ALS number must be attached to each setline.
- Setlines shall not be attached to jugs or other floating devices.

**Snagging:** Snagging of fish is allowed only on waters specified in District Exceptions.

**Spearing:** In all waters open to fishing, non-game fish may be taken with rubber or spring-propelled spears by persons swimming or submerged. Game fish species may be taken with rubber or spring-propelled spears by persons swimming or submerged but only from designated waters. Spearing may be used through the ice for designated species in designated waters.

## Bait Regulations

- Game fish, including Yellow Perch, may not be used as bait except as authorized below under **"Dead Bait"**. **See "Game Fish" in definitions (page 92) for complete list of game species.**
- It is unlawful to release live bait of any kind into Montana waters; do not empty any live bait containers at your fishing site.
- **Collection methods:** Non-game fish may be taken for use as live bait in the following manner:
  - with hook and line; or
  - with seines no larger than 12 feet by 4 feet; or
  - with minnow traps (the dimensions shall not exceed 24 inches x 12 inches x 12 inches); or
  - with cast nets (maximum 6-foot radius) and dip nets (no larger than 3 feet x 3 feet).
- **See "Dead Bait" and "Live Bait" sections below for details on possession and use non-game bait fish.**
- **Collection Locations: Non-game fish for use as live bait may be taken from waters where live fish may be used as bait (see water list under "Live Bait"). Non-game fish may be collected from water open to angling in the Central District but must be dead before transporting.**
- On waters within the Central Fishing District that do not allow the use of live bait and are not restricted to artificial flies and lures, Sculpins (genus *Cottus*) may be collected and used as dead bait. Collection screens or nets may not exceed four (4) feet in length on any side. Sculpins must be killed immediately upon collection and may not be used as live bait. [Note: Sculpins (genus *Cottus*) may not be used for bait in the Western Fishing District.]
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or name and ALS number attached.
- Areas within the Central Fishing District that have been identified as contaminated with Eurasian watermilfoil have additional bait restrictions as described below.

## Dead Bait

- Non-game fish (**see "Collection methods" above**) that are freshly killed or have been preserved by freezing, salting or pickling may be used as bait on all waters not restricted to artificial lures only. Heads and entrails of non-game fish may also be used as bait.
- Whole game fish may not be used as bait. Parts/pieces of Bass, Burbot (Ling), Channel Catfish, Crappie, Northern Pike, Paddlefish, Sauger, Shovelnose Sturgeon, Walleye, or Yellow Perch may be used as bait if

edible portions are not wasted.

- The eggs of **Salmonids** (Char, Cisco, Arctic Grayling, Salmon or Trout) may be used as bait. **Other** parts/pieces of may not be used as bait.

### Live Bait

- Live bait fish may not be imported into Montana, except by permit for use in Bighorn Lake and Afterbay Reservoir.
- Bait fish collected in the Bighorn River drainage of Wyoming may be imported under a permit issued by FWP for use only in Bighorn Lake. For a permit, contact the FWP Fisheries Division at 2300 Lake Elmo Drive, Billings, MT 59105 or call (406) 247-2940.
- Live animals such as meal worms, red worms, night crawlers, leeches, maggots, crayfish, reptiles, amphibians and insects may be used as bait on all waters not restricted to artificial lures only. **Transport of invasive species is unlawful.**
- Leeches may only be imported into Montana from FWP-approved leech dealers. Anglers who import leeches must have in their possession a bill-of-sale (a receipt) from the approved out-of-state leech dealer when fishing with leeches in Montana. A list of approved out-of-state leech dealers may be obtained from FWP by calling 406-452-6181.
- **Non-game** fish species that may be collected and **possessed and** used as live bait in the Central Fishing District include only the following: Fathead Minnow, Flathead Chub, Western Silvery Minnow, Plains Minnow, Emerald Shiner, Longnose Dace, Lake Chub, Creek Chub, Longnose Sucker, and White Sucker. **All other non-game fish species (not listed above) must be released immediately at the collection site or killed prior to transporting away from the collection site (see "Dead Bait" page 50). See pages 94-95 for live bait fish identification. Be proactive, bait fish that cannot be positively identified should not be used as live bait.**
- **The non-game fish** species listed above may be used as live fish bait only in the following waters:
  - Bighorn Lake and Afterbay Reservoir
  - Bighorn River—Afterbay Dam to the cable 600 feet downstream, and downstream from the Bighorn FAS
  - Clarks Fork Yellowstone River and tributaries, except the Rock Creek drainage—downstream from the bridge at Bridger
  - Marias River and tributaries downstream from I-15
  - Missouri River downstream from Morony Dam
  - Muddy Creek Drainage near Vaughn, including all streams and drainage canals
  - Teton River and tributaries downstream from I-15
  - Tiber Reservoir (Lake Elwell), Toole and Liberty counties
  - Yellowstone River and all streams and ditches in the drainage downstream from the mouth of the Clarks Fork (except the section of the Bighorn River between the cable 600 feet downstream from Afterbay Dam and the Bighorn FAS).

### Bait restrictions in Eurasian watermilfoil contaminated areas

Eurasian watermilfoil is an invasive aquatic plant that has become established in some Montana waters. This plant is easily spread from one body of water to another primarily by people transporting plant fragments. Anglers shall inspect all bait buckets, live wells, anchors and gear to ensure that **NO PLANT FRAGMENTS** are present when leaving a body of water. It takes only a small fragment of Eurasian watermilfoil to start a new plant and infest a body of water.

Areas within the Central Fishing District that have been identified as contaminated with Eurasian watermilfoil are:

- Jefferson River

- Lower Madison River north of I-90
- Missouri River from the confluence of the three forks to the headwaters of Canyon Ferry Reservoir
- Toston Reservoir

Additional bait restrictions within the contaminated areas are:

- The collection of bait animals, including commercial seining is not permitted.
- Transport of live aquatic bait animals to and from these contaminated areas is allowed only in clean water (e.g. transport minnows and leeches in well water).

## General Regulations

**Possession limit** means the number of fish that you may possess at any time in any form: fresh, stored in freezers or lockers, salted, smoked, dried, canned or otherwise preserved. It is unlawful to preserve fish (salted, smoked, dried, canned, or otherwise preserved) before taking them to your permanent residence (the physical abode or structure you maintain as your principal, legal residence) unless those fish can be counted. Mobile recreational vehicles, travel trailers, tents or storage/freezer lockers do not qualify as permanent residences. No person may sell or take for the purpose of sale any fish except as authorized in commercial fishing regulations.

**Daily limit** means the number of fish you may legally take during a calendar day. It is unlawful to exceed the standard daily limit unless the regulations for the water body where you are fishing specify a different limit. "Legally taken" means fish caught and not immediately released alive. Where catch-and-release is allowed, fish immediately released alive are considered not taken. A fish when landed and not immediately released becomes part of the daily limit of the person originally hooking the fish, even if the fish is donated to another person. If you receive fish from another angler, those fish also become part of your daily limit. You may possess the daily limit allowed only for the body of water on which you are fishing.

### Handling and Transporting Legally Taken Fish

While a person is fishing, or while on the water, or on the ice:

- All fish in possession must be visibly identifiable to species.
- All fish in possession must be whole with head, skin, fins and tail attached. Gills and entrails may be removed (see Disposal of Dead Fish and Fish Entrails on page 16).
- This doesn't prohibit the consumption of fish on the ice or water. However, the fish consumed are part of your daily limit.

Once off the water or ice, fish may be dressed and filleted for transport to your permanent residence, unless size limits apply, under the following conditions:

- All fish can be counted and identified. Two fillets will be counted as one fish. If the catch is frozen prior to transport, each fish or fillet must be packaged so it can be counted.
- Salmonids (Trout, Salmon, Arctic Grayling, Char and Whitefish): the entire skin must be attached to the fillet for identification.

## General Fishing Seasons and Hours

### Fishing Hours

Fishing is allowed at all hours during open fishing seasons unless otherwise specified in District Exceptions to Standard Regulations.

### Fishing Season: Lakes and Reservoirs

Open entire year unless otherwise specified in District Exceptions to Standard Regulations.

### Fishing Season: Rivers and Streams

Open entire year unless otherwise specified in District Exceptions to Standard Regulations.

## Central District Standard Daily and Possession Limits

See map on page 47 to make sure you are in the Central District. Each angler may take all of the limits listed in the chart, unless otherwise noted in the Central District Exceptions. For species not listed, there are no limits on the number of fish that may be taken or possessed.

Anglers who move from one fishing water to another may possess the limit of fish allowed only for the water on which they are currently fishing.

	<b>Species</b>	<b>Daily and Possession Limits</b>
<b>T R O U T</b>	<b>Brook Trout</b>	20 daily and in possession.
	<b>Combined Trout</b> includes Brown Trout, Rainbow Trout, Golden Trout, Cutthroat Trout and Arctic Grayling	Lakes/Reservoirs: 5 daily and 10 in possession, includes Cutthroat Trout.  Rivers/Streams: 5 daily and in possession, only 1 over 18 inches, only 1 can be a Cutthroat Trout. All Arctic Grayling must be released immediately.
	<b>Lake Trout</b>	3 daily and in possession.
	<b>Bass</b>	5 daily and in possession.
	<b>Burbot (Ling)</b>	5 daily and in possession.
	<b>Channel Catfish</b>	10 daily and in possession.
	<b>Crappie</b>	<b>15 daily and in possession.</b>
	<b>Northern Pike</b>	10 daily and in possession.
	<b>Pallid Sturgeon</b>	None - this is an endangered species and all fish must be released immediately. All waters are closed to fishing for Pallid Sturgeon.
	<b>Salmon</b> (Kokanee & Chinook)	10 daily and in possession.
	<b>Sauger/Walleye</b>	5 daily, only 2 may be Sauger. Possession limit is 10, only 4 may be Sauger.
	<b>Shovelnose Sturgeon</b>	5 daily and in possession, none over 40 inches.
	<b>Tiger Muskie</b>	1 daily and in possession, must be over 40 inches.
	<b>Whitefish</b>	20 daily and 40 in possession.

Central District

<b>2021 GENERAL FISHING SEASON</b>		
<b>Central District</b>	Rivers and Streams	Lakes and Reservoirs
	Open all year unless otherwise specified in Exceptions to Standard Regulations.	Open all year
If you don't find the water you are looking for listed in the district exceptions, use the standard regulations for the district you are fishing in.		

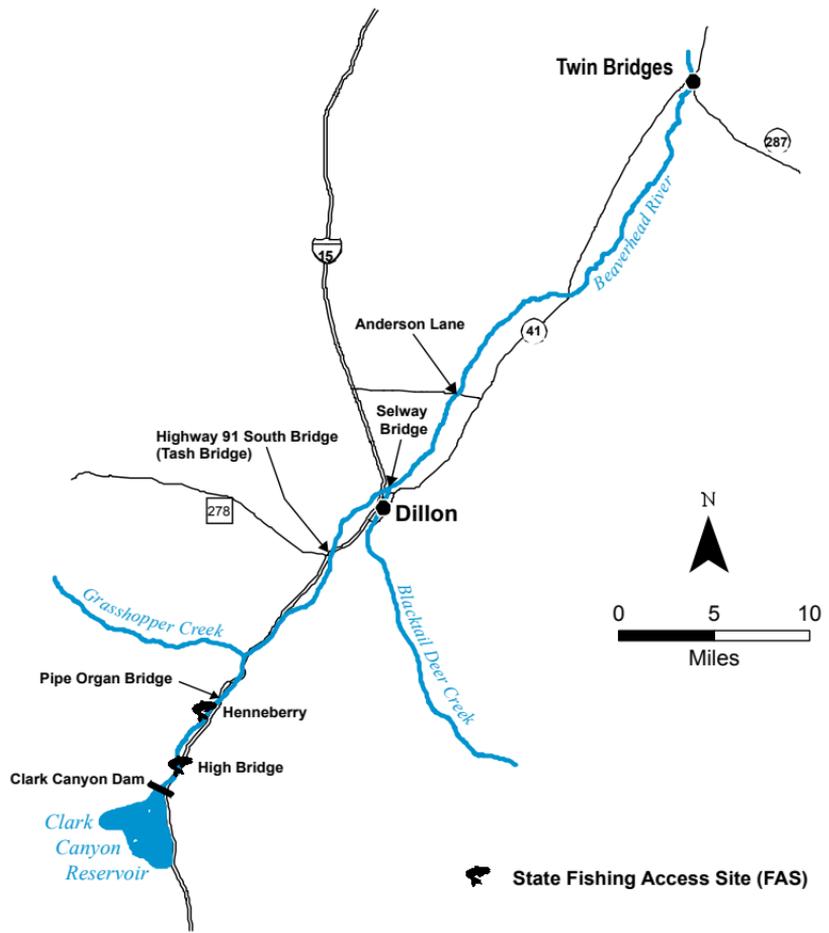

## Central District Exceptions To Standard Regulations

Check the following list of waters for the body of water you intend to fish in the Central District. If the body of water is not found in the listing of Exceptions, all of the Central District standard seasons, daily/possession limits, and standard regulations apply. Standard regulations apply for species not listed in the Exceptions.

- ***Smallmouth Bass: All Smallmouth Bass caught must be killed immediately, kept and the entire fish turned into FWP. Anglers who catch Smallmouth Bass in the Shields River above the Chadbourne Diversion are required to report the catch to FWP within 24 hours (406-577-7900). Anglers will be asked to provide location, date, and time of capture and may be asked to provide their full name, ALS number, and phone number. Anglers are required to turn in the whole Smallmouth Bass to a FWP office within 10 days of capture (frozen is allowed) during regular business hours.***

**SILVER CREEK aka D2 Ditch (tributary to Prickly Pear Creek)**  -----

**Downstream from the I-15 bridge near Helena**

- Open third Saturday in May through Labor Day.

**Waterbody/Section**

**Exceptions to Standard Regulations**

**SLOUGH CREEK (Yellowstone River drainage)** -----

- Cutthroat Trout: 3 daily and in possession, only 1 over 14 inches.

**SMITH RIVER**  -----

NOTE: Floating on the Smith River between Camp Baker and Eden Bridge is strictly limited. Mandatory registration, floater's fee and other regulations apply. A drawing for launch dates is held in February with remaining launches filled on a first-come basis. Contact the Great Falls FWP office at 406-454-5840 for more information.

**Sheep Creek from bridge upstream of Moose Creek to the mouth, Rock Creek from bridge at Lingshire Road to the mouth, Tenderfoot Creek from falls just upstream of Daisy Creek to the mouth, and Hound Creek from Upper Millegan Road bridge to the mouth.**

- Open third Saturday in May to November 30.

**Camp Baker Bridge to Eden Bridge**

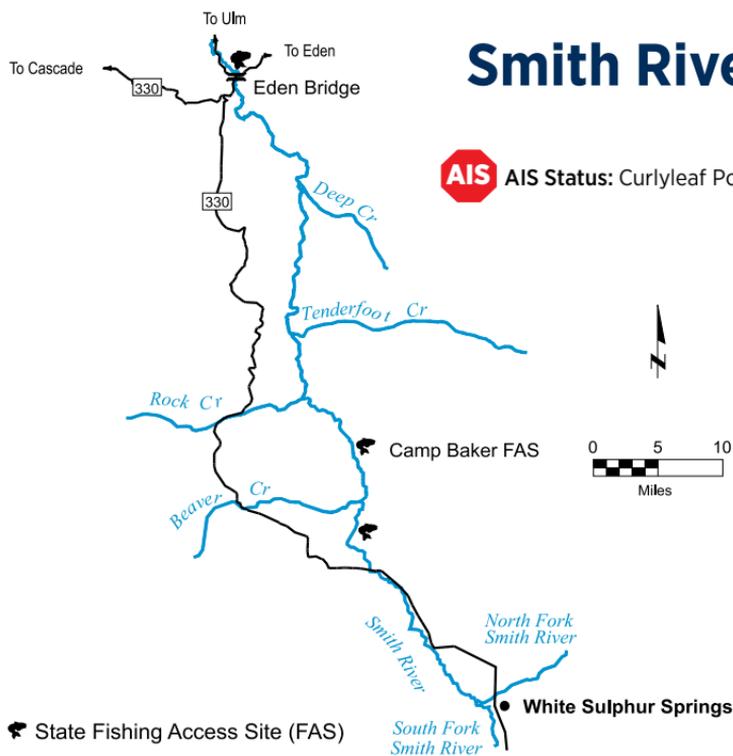

- Combined trout: 3 under 13 inches daily and in possession and only 1 over 22 inches daily and in possession.
- Artificial lures only, except anglers 14 years of age or younger may use bait.

**SODA BUTTE CREEK (Yellowstone River drainage)** -----

- Cutthroat Trout: 3 daily and in possession, only 1 over 14 inches.

**SOUTH FORK MADISON RIVER (tributary to Hebgen Reservoir)** -----

- Open third Saturday in May through November 30.

 State Fishing Access Site (FAS)

Waterbody/Section	Exceptions to Standard Regulations
-------------------	------------------------------------

**SOUTH FORK SUN RIVER AND TRIBUTARIES** -----

**Upstream from the point where the North and South Forks of the Sun River meet, regardless of reservoir level**

- Combined trout: 3 daily and in possession only 1 over 12 inches.

**SOUTH FORK TETON RIVER (near Choteau)** -----

- Catch-and-release for Cutthroat Trout.

**SOUTH FORK TWO MEDICINE RIVER DRAINAGE** -----

**Within National Forest**

- Combined trout: 3 daily and in possession, none over 12 inches.

**SOUTH WILLOW CREEK (near Harrison)** -----

**Highway 287 Bridge to Harrison Reservoir**

- Open June 15 through November 30.

**SPLIT ROCK LAKE** -----

- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice only.
- Spearing: open for Northern Pike through the ice only.

**SPRING MEADOW LAKE** -----

- Combined trout: 5 daily and in possession.
- Bass: 3 daily and in possession, none over 10 inches.
- No spear fishing or bow fishing allowed.

**SUNNY SLOPE CANAL** -----

**Downstream from Pishkun Reservoir**

- Catch-and-release for Arctic Grayling.
- Combined trout: 5 daily and in possession.

**SWAZEE LAKE (Sun River Wildlife Management Area)** -----

- Open May 15 at 12:00 noon through November 30.

**TIBER RESERVOIR aka Lake Elwell**  -----

**NOTE:**  AIS Status: Quagga/Zebra Mussel

- All watercraft must be inspected prior to leaving.
- Cisco and Whitefish: all fish must be released immediately or killed and counted as part of your limit. It is unlawful to possess live Cisco or Whitefish for any reason.
- Hook and Line/Setlines: 6 lines with 2 hooks per line through the ice only.
- Spearing: open for non-game fish, Northern Pike, Walleye, and Burbot (Ling) through the ice and by persons swimming or submerged.

**TROUT CREEK (Tributary to Missouri River)** -----

- Open third Saturday in May through November 30.

**TUNNEL LAKE (Teton County)** -----

- Combined trout: includes 1 Arctic Grayling.

**TWIN LAKES (Big Hole River drainage)** -----

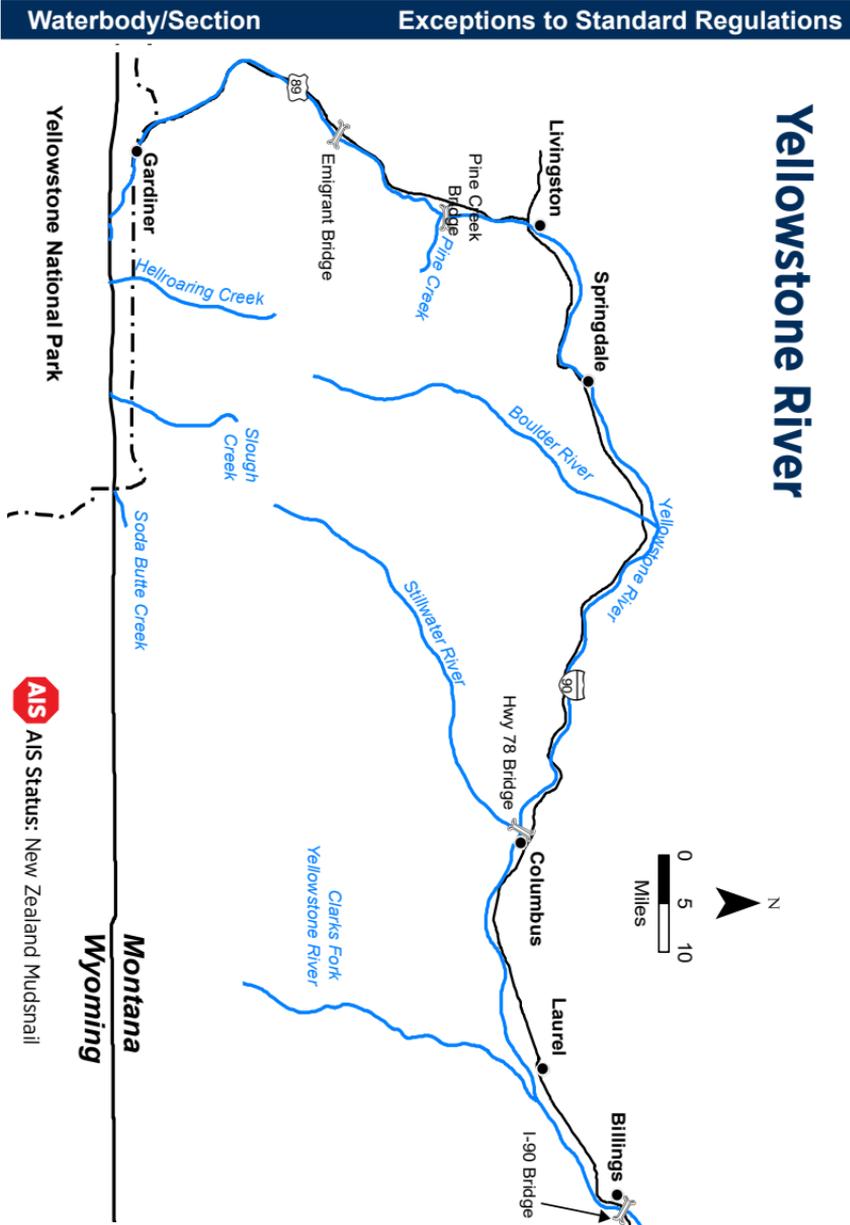

- Catch-and-release for Lake Trout.
- Combined trout: 3 daily and in possession.

**VIGILANTE POND (near Virginia City)** -----

- Open to fishing for anglers 14 years of age or younger only. One rod per child.

## Yellowstone River

### YELLOWSTONE RIVER TRIBUTARIES

#### Hellroaring, Slough and Soda Butte creeks upstream from YNP Boundary

- Cutthroat Trout: 3 daily and in possession, only 1 over 14 inches.

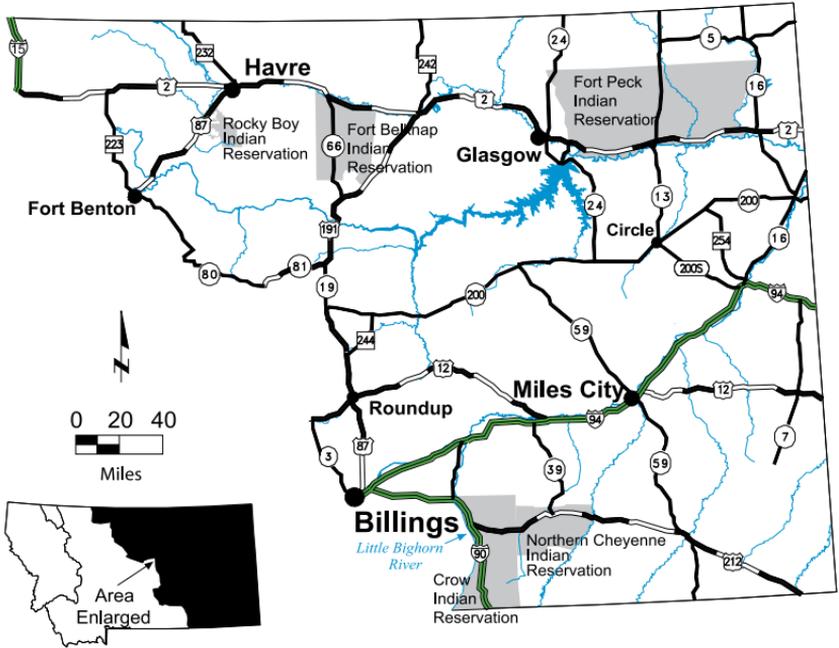

#### All tributaries between YNP Boundary and Pine Creek Bridge

- Catch-and-release for Cutthroat Trout.

#### All tributaries downstream from Springdale

- Combined trout: all may be Cutthroat Trout (unless indicated otherwise in exceptions).

## Eastern Fishing District

Areas excluded from fishing districts.  
Additional regulations may apply.  
Other federal or tribal permits may be required.

**The Eastern Fishing District includes all waters lying east of the Central Fishing District. For the boundary description, see Central Fishing District, page 47.**

**Note:** Roadways that are used as boundaries between the Central and Eastern Fishing Districts are interpreted to be in the Central Fishing District. See description of the Central and Eastern Fishing District boundary on page 47.

For additional information regarding the boundaries of this district, please call the following regional headquarters Monday-Friday 8:00 a.m. - 5:00 p.m.:

- Billings** ..... 406-247-2940
- Glasgow** ..... 406-228-3700
- Great Falls** ..... 406-454-5840

- Lewistown Area Office** ..... 406-538-4658
- Miles City** ..... 406-234-0900
- FWP Headquarters** ..... 406-444-2449
- Hearing Impaired (use Montana Relay)** ..... 7-1-1 or 1-800-253-4091

## Eastern District Standard Regulations

**Closed Waters:** Waters operated as fish hatcheries and rearing ponds by FWP and the US Fish and Wildlife Service shall be closed to fishing at all times. Waters in which FWP operates fish traps and other structures are closed to fishing as posted. Certain water-supply lakes, streams and hazardous areas are also closed as posted.

**Dam Closures and Restrictions:** In the interest of public health and safety, certain areas above and below most dams are closed to the public. These restrictions include areas where no public access is allowed below the ordinary high-water mark. The restricted areas are identified and delineated by signs and/or boat restraining systems. The following dams are closed to all boating, sailing, floating, swimming, fishing or other recreational activity as marked by boat restraining systems or as posted to restrict access. Other dams not listed here may also be posted for restricted access. For more information call the FWP Fishing Access Coordinator at 406-444-2449, or contact the Bureau of Reclamation (BOR) at 406-247-7296 or the Army Corps of Engineers (ACOE) 406-293-7751.

Anita Dam (BOR, Yellowstone County)  
Fort Peck Dam (ACOE, Valley County)  
Fresno Dam (BOR, Hill County)  
Tongue River Reservoir (DNRC, Big Horn County)

**Beaver Ponds:** Beaver ponds on streams are governed by the same regulations that govern the streams.

**Fort Peck Reservation - Tribal Boundary Water Regulations:** Non-tribal members licensed through the State of Montana and/or Fort Peck Tribes that are fishing in waters that form the exterior boundaries of the Reservation -- Big Muddy Creek, Missouri River and/or Milk River -- are permitted to harvest the following limits:

Burbot (Ling)	5 daily and in possession
Channel Catfish	10 daily and 20 in possession
Northern Pike	10 daily and in possession
Paddlefish	1 per season and in possession
Sauger/Walleye	5 daily and 10 in possession
Pallid Sturgeon	0 (all waters are closed to fishing for Pallid Sturgeon)
Shovelnose Sturgeon	5 daily and in possession

These harvest limits cannot be exceeded, even if the angler possesses both tribal and state licenses, and fishes on and/or off the reservation on the same day.

Non-tribal members licensed through the State of Montana and/or the Fort Peck Tribes, that are fishing in exterior boundary waters — Big Muddy Creek, Missouri River and/or Milk River — are limited to a maximum of 6 lines with 6 hooks per line. Unattended lines are required to be identified with the angler's name and/or ALS number. Setlines shall not be attached to jugs or floating devices.

**Irrigation Canals and Ditches:** Man-made irrigation canals and ditches are open year round unless stated otherwise in exceptions to standard regulations. The same daily and possession limits apply to them as for rivers/streams. Please refer to "Irrigation Canals and Ditches" on page 20 for more details.

**Reservoirs:** Under normal operations, reservoir pool elevation, surface acreage and the mouths of the inlet stream(s) are expected to vary throughout the year. An imaginary line connecting the reservoir shoreline across the mouth of the stream marks the boundary between reservoir and stream/river, and the boundary will move as reservoir levels change. Streams are defined by a sloped streambed that results in a defined current flow between two discernible stream banks. Stream regulations apply upstream from the mouth on the reservoir and often are managed under seasons, limits and special regulations that differ from the reservoir regulations.

## Eastern District Standard Regulations

### Transporting Live Fish

An import permit is required to bring live fish of any kind into Montana (see page 89). It is unlawful to possess or transport any live fish away from the body of water in which the fish were taken with the following exceptions:

- 1) **Possession and transport of live fish** for authorized commercial purposes (e.g. Bait Seining Permit, Commercial Fish Ponds, Commercial Fishing, **permitted Fishing Contests**).
- 2) Use of live bait subject to restrictions for the taking, **possession**, transport and use of live baitfish (see **"Bait Regulations"** on page 78);
- 3) Within the boundaries of the Eastern Fishing District. It is unlawful to possess or transport live fish, other than **live non-game** bait fish, on roadways that form the boundary between the Eastern and Central fishing districts; or
- 4) **Possession and transport of live non-game** bait fish to and from areas contaminated with Eurasian watermilfoil (Fort Peck Reservoir, Fort Peck Dredge Cut Ponds, and the Missouri River from Fort Peck Dam to the mouth of the Milk River) is allowed ONLY in clean water (e.g. transport **bait fish** in well water).

**Boat and Motor Restrictions:** A complete, updated, copy of the Montana Boating Laws may be obtained by contacting any FWP office or any FWP license agent. All passengers under the age of 12 must wear a PFD at all times when the boat is in motion if the boat is less than 26 feet long. A wearable, U.S. Coast Guard approved PFD must be available for each occupant of any boat.

### Methods of Taking Fish

- A valid fishing license is required for all types of fishing.
- Spears and bows are counted as lines for purposes of determining line limits.
- When multiple lines are allowed on a body of water, the number of lines shall not exceed the combination of attended lines, setlines, or spears. For example, while spearing for Northern Pike on Tongue River Reservoir in the winter (where the limit is 6 lines through the ice), an angler may only have 5 setlines in use.
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or name and ALS number attached.

### Hook and Line Limits

#### Open Water

#### **Rivers and Streams**

- 6 lines with 6 hooks per line. The line(s) must be attended and in the angler's immediate control unless they are used as setlines. See regulations for Setlines on page 77.

#### **Lakes and Reservoirs**

- 2 lines with 2 hooks per line or as noted under Exceptions to Standard Regulations. All lines must be attended and in the angler's immediate control unless they are used as setlines. See regulations for Setlines on page 77.

#### Ice Fishing

#### **Lakes, Reservoirs, Rivers and Streams**

- 6 lines with 2 hooks per line through the ice. When a line is used through the ice, the angler need not be in immediate control but must be in the vicinity and in visual contact with the line unless they are used as setlines. See regulations for Setlines.

**Size of Hole:** There is no size limit for a hole used for ice fishing or with a spear.

**Shelters:** It is unlawful to use any ice fishing shelter not conforming to the following rules:

Definition/Use: Any hut or enclosure constructed of any material, except ice or snow, for the purpose of ice fishing.

Identification: Identification must be painted on or otherwise affixed to all unattended shelters in legible, 2-inch letters plainly visible at a distance of 100 feet. Identification must include the owner's name and address, name and phone number, or 9/10-digit ALS number. Attended shelters at Bearpaw Lake and Beaver Creek Reservoir must also be identified.

Inspection: Each closed shelter shall have a door that an officer may readily open from the outside for inspection when it is occupied.

Waste and Rubbish Disposal: Owners and occupants of shelters are required to keep their shelters (and the area immediately around them) free from rubbish and trash. Anglers must remove waste materials before they leave for the day.

Removal After the Season: The owner of an ice fishing shelter shall remove it from the ice before it becomes irretrievable at the end of the season, or by March 1. Shelters may remain on the ice after March 1 but must be removed daily if not occupied overnight.

### Setlines

- Number of lines is the same as for Hook and Line Limits. Setlines may be used in all waters unless prohibited in the District Exceptions to Standard Regulations.
- Setlines (unattended lines) must be checked by the owner at least once every 24 hours.
- The angler's name and phone number or name and 9/10-digit ALS number must be attached to each setline.
- Setlines shall not be attached to jugs or other floating devices.

**Bow and Arrow:** Unless otherwise noted in the exceptions to the standard regulations, all waters open to angling are open to taking non-game fish by bow and arrow. Paddlefish can be harvested by bow and arrow anglers with a valid Paddlefish tag and during an open Paddlefish harvest day (see General and Standard Paddlefish Regulations).

**Crossbows:** Unlawful.

**Nets and Traps:** Landing nets may be used for landing hooked fish. See Bait Regulations for use of nets to harvest bait fish.

### Hoop Nets

- The use of hoop nets is permitted in certain areas of the Eastern Fishing District.
- The use of hoop nets is limited to licensed resident anglers.
- A permit is required. Permit applications and rules are available at FWP offices in Billings, Miles City and Glasgow.
- Closed statewide March 1 through May 15.

**Snagging allowed for:** 1) Chinook Salmon on Fort Peck Reservoir only from October 1 through November 30; 2) Paddlefish by anglers with a valid Paddlefish tag/license during an open Paddlefish season (see General and Standard Paddlefish Regulations); and 3) non-game fish on all open waters in the Eastern District except on the Missouri River downstream from Fort Benton to the North Dakota border, the Yellowstone River downstream from the mouth of the Bighorn River, and Powder River downstream of Highway 10 bridge.

**Spearing:** In all waters open to fishing, non-game fish, Northern Pike, Burbot (Ling), Walleye and Whitefish may be taken with rubber or spring-propelled

spears by persons swimming or submerged. Spears or gigs may be used through the ice for non-game fish, Northern Pike, Walleye, Sauger and Burbot (Ling).

## Bait Regulations

- Game fish, including Yellow Perch, may not be used as bait except as authorized below under Dead Bait. **See “Game Fish” in definitions (page 92) for complete list of game species.**
- It is unlawful to release live bait of any kind into Montana waters; do not empty any live bait containers at your fishing site.
- **Collection Methods:** Non-game fish may be taken for use as **live** bait in the following manner:
  - with hook and line; or
  - with seines no larger than 12 feet by 4 feet; or
  - with minnow traps (the dimensions shall not exceed 24 inches x 12 inches x 12 inches); or
  - with cast nets (maximum 6-foot radius) and dip nets (no larger than 3 feet x 3 feet).
- **See “Dead Bait” and “Live Bait” sections below for details on possession and use of non-game bait fish.**
- **Non-game fish may be taken from:**
  - waters where live fish may be used as bait (see water list below under “Live Bait”);
  - all rivers and streams;
  - all irrigation ditches, canals and associated infrastructure; or
  - public and private ponds with fathead minnows.
- Landowner permission is required to capture live bait from privately owned ponds **or irrigation systems for personal use. A Commercial Fishing License (page 89) and a Commercial Pond License is required to sell bait from a privately owned pond.**
- All unattended fishing devices (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler’s name and phone number or name and ALS number attached.
- Areas within the Eastern Fishing District that have been identified as contaminated with Eurasian watermilfoil have additional bait restrictions as described below.

## Dead Bait

- Non-game fish (**see “Collection Methods” above**) that are freshly killed or have been preserved by freezing, salting or pickling may be used as bait on all waters not restricted to artificial lures only. Heads and entrails of non-game fish may also be used as bait.
- Whole game fish may not be used as bait.
- Parts/pieces of Bass, Burbot (Ling), Channel Catfish, Crappie, Northern Pike, Paddlefish, Sauger, Shovelnose Sturgeon, Walleye, or Yellow Perch may be used as bait if edible portions are not wasted.
- The eggs of **Salmonids** (Char, Cisco, Arctic Grayling, Salmon or Trout) may be used as bait. **Other** parts/pieces of Salmonids may not be used as bait.

## Live Bait

- Live bait fish may not be imported into Montana.
- Live animals such as meal worms, red worms, night crawlers, leeches, maggots, crayfish, reptiles, amphibians and insects may be used as bait on all waters not restricted to artificial lures only. **Transport of invasive species is unlawful.**
- Leeches may only be imported into Montana from FWP-approved leech

dealers. Anglers who import leeches must have in their possession a bill-of-sale (a receipt) from the approved out-of-state leech dealer when fishing with leeches in Montana. A list of approved out-of-state leech dealers may be obtained from FWP by calling 406-452-6181.

- **Non-game** fish species that may be collected, **possessed**, and used as live bait in the Eastern Fishing District include only the following: Fathead Minnow, Flathead Chub, Western Silvery Minnow, Plains Minnow, Emerald Shiner, Longnose Dace, Lake Chub, Creek Chub, Longnose Sucker, and White Sucker. **All other non-game fish species (not listed above) must be released immediately at the collection site or killed prior to transporting away from the collection site (see "Dead Bait" on page 78).** See pages 94-95 for live bait fish identification. **Be proactive, bait fish that cannot be positively identified should not be used as live bait.**
- The **non-game fish** species listed above may be used as live bait only in the following waters:

#### **Lakes, Reservoirs, Ponds and Impoundments (listed by County):**

Big Horn Co. – Tongue River Reservoir (see exceptions to standard regulations)  
Blaine Co. – Cow Creek Reservoir, Dry Fork Reservoir, Anita Reservoir, Reser Reservoir  
Carter Co. – Doug Gardner #2 Reservoir, Talcott Pond  
Custer Co. – Spotted Eagle Pond, Haughan Pond  
Daniels Co. – Whitetail Reservoir  
Dawson Co. – Hollecker Pond, Johnson Reservoir, Lindsey Reservoir  
Fallon Co. – Baker Lake, South Sandstone Reservoir  
Garfield Co. – Fort Peck Reservoir, Whiteside Reservoir  
Hill Co. – Beaver Creek Reservoir, Bailey Reservoir  
McCone Co. – Flat Lake, Fort Peck Reservoir, Hedstrom Reservoir  
Petroleum Co. – Fort Peck Reservoir, Petrolia Reservoir  
Prairie Co. – Grants Reservoir, Homestead Reservoir  
Phillips Co. – Bison Bone Reservoir, Big McNeil Slough, Cole Ponds, Ester Reservoir, Fort Peck Reservoir, Frenchman Reservoir, Little Warm Reservoir, McChesney Reservoir, Nelson Reservoir, Wildhorse Reservoir  
Richland Co. – Buxbaum West Reservoir, Gartside Reservoir, Kuester Reservoir  
Roosevelt Co. – Bainville Railroad Ponds  
Rosebud Co. – Castle Rock Lake, Lee Pond  
Sheridan Co. – Box Elder Reservoir, Engstrom Reservoir, Medicine Lake Nat. Wildlife Refuge, Raymond Reservoir  
Valley Co. – Fort Peck Dredge Cut Trout Pond, Fort Peck Reservoir, Grub Reservoir, Gut Shot Reservoir, Shoot Reservoir, Triple Crossing Reservoir, Valley Reservoir, VR2 Reservoir, Wards Res., and all BLM reservoirs in the Willow Creek Drainage  
Wibaux Co. – Wibaux Pond

**Rivers and Streams:** All streams and rivers in the Eastern Fishing District except:

Milk River and its tributaries upstream from Fresno Dam.  
Beaver Creek upstream from Beaver Creek Reservoir.

#### **Bait restrictions in Eurasian watermilfoil contaminated areas**

Eurasian watermilfoil is an invasive aquatic plant species that has become established in some Montana waters. This water weed is easily spread from one body of water to another primarily by plant fragments. Areas within the Eastern Fishing District that have been identified as contaminated with Eurasian watermilfoil are:

- Fort Peck Reservoir
- Fort Peck Dredge Cut Ponds
- Missouri River from Fort Peck Dam to the mouth of the Milk River

The additional bait restrictions within the contaminated areas are:

- Commercial collection of bait animals is not permitted.
- Transport of live aquatic bait animals to and from these contaminated areas is allowed only in clean water (e.g. transport minnows and leeches in well water).

Anglers shall inspect all bait buckets and live wells to ensure that NO PLANT FRAGMENTS are present when leaving a body of water. It takes only a small fragment of Eurasian watermilfoil (less than 2 inches) to start a new plant and infest a body of water.

## General Regulations

**Possession limit** means the number of fish that you may possess at any time in any form: fresh, stored in freezers or lockers, salted, smoked, dried, canned or otherwise preserved. It is unlawful to preserve fish (salted, smoked, dried, canned, or otherwise preserved) before taking them to your permanent residence (the physical abode or structure you maintain as your principal, legal residence) unless those fish can be counted. Mobile recreational vehicles, travel trailers, tents or storage/freezer lockers do not qualify as permanent residences. No person may sell or take for the purpose of sale any fish except as authorized in commercial fishing regulations.

**Daily limit** means the number of fish you may legally take during a calendar day. It is unlawful to exceed the standard daily limit unless the regulations for the water body where you are fishing specify a different limit. "Legally taken" means fish caught and not immediately released alive. Where catch-and-release is allowed, fish immediately released alive are considered not taken. A fish when landed and not immediately released becomes part of the daily limit of the person originally hooking the fish, even if the fish is donated to another person. If you receive fish from another angler, those fish also become part of your daily limit. You may possess the daily limit allowed only for the body of water on which you are fishing.

### Handling and Transporting Legally Taken Fish

While a person is fishing, or while on the water or on the ice:

- All fish in possession must be visibly identifiable to species.
- All fish in possession must be whole with head, skin, fins and tail attached. Gills and entrails may be removed. This doesn't prohibit the consumption of fish on the ice or water. However, the fish consumed are part of your daily limit (see Disposal of Dead Fish and Fish Entrails on page 16).

Once off the water or ice, fish may be dressed and filleted for transport to your permanent residence, unless size limits apply, under the following conditions:

- All fish can be counted and identified. Two fillets will be counted as one fish. If the catch is frozen prior to transport, each fish or fillet must be packaged so it can be counted.
- Salmonids (Trout, Salmon, Arctic Grayling, Char and Whitefish): the entire skin must be attached to the fillet for identification.

## General Fishing Seasons and Hours

### Fishing Hours

- Fishing is allowed at all hours during open fishing seasons unless otherwise specified in District Exceptions to Standard Regulations.

### Fishing Season: Lakes/Reservoirs and Rivers/Streams

- All waters open entire year unless otherwise specified in District Exceptions to Standard Regulations.

## Paddlefish Season Summary by River and River Section

River	River Section	Color	Season Dates	Harvest Days	C&R Days
Missouri River	Ft Peck Dam to Ft Benton	white	May 1 - Jun 15	all	all
	Ft Peck Dredge Cuts - no snagging	blue	July 1 - Aug 31	all - bow & arrow harvest only	none
	Ft Peck Dam to ND Line	yellow	May 15 - Jun 30	Tue,Wed,Fri,Sat	none

	Intake FAS	yellow	May 15 - Jun 30	Tue,Wed,Fri,Sat	Sun, Mon, Thur
	Downstream of Intake FAS to ND Line	yellow	May 15 - Jun 30	Tue,Wed,Fri,Sat	none
<b>FAS = Fishing Access Site</b>			<b>C&amp;R = Catch-and-Release</b>		

### General Paddlefish Regulations for ALL Areas

- All Paddlefish anglers must purchase a Paddlefish tag, a Conservation License, and the required fishing license (see License Requirements pages 12-13). All licenses must be in the angler's immediate possession while fishing.
- Each angler must cast for, hook and reel in his or her own Paddlefish. It is unlawful for another person to do so. It is unlawful to loan tags or use another angler's tag.
- It is unlawful to snag Paddlefish via boat trolling; casting from an anchored or drifting boat is lawful.
- Any fish other than Paddlefish caught while Paddlefishing must be immediately released alive.
- Bow and Arrow: lawful on harvest days in sections of river open to harvest or in a bow fishing only area; unlawful for catch-and-release.
- Hook size is limited to 8/0 and smaller for all Paddlefish snagging.
- Gaffs, no longer than 4.5 feet in length, may be used to land a Paddlefish that will be harvested. Gaffs may not be used to land a Paddlefish that will be released.
- Any angler tag locked shut prior to attachment to a Paddlefish shall be void and is not replaceable. Any altered or modified tag shall be void. **Voided or lost tags are not replaceable.**
- Paddlefish must be tagged immediately upon harvest.

#### Tagging a Paddlefish

- Cut a small hole in the base of the dorsal fin.
- Insert the metal loop portion of the plastic self-locking tag through this hole and seal tag.
- The metal loop must penetrate the fish so as to make the plastic self-locking tag non-removable when tag is sealed.
- The plastic self-locking tag must be completely sealed so it cannot be reopened. Any fish not tagged in accordance with these instructions shall be considered to be untagged.

- When a Paddlefish is captured and tagged, the fish must be removed from the river by the end of the day (9:00 PM MST).
- Anglers are required to report the harvest of any Paddlefish within 48 hours of harvest.
- Reporting options include on-site at fisheries check station or roving crews, phone hotline (1-877-FWP-WILD or 406-444-0356), or online at [myfwp.mt.gov](http://myfwp.mt.gov).
- Anglers reporting a harvested Paddlefish will provide the following information: Angler tag number, jaw tag number (if present), length (eye-tail fork), sex, date of harvest and harvest location. Additional information that may be collected on-site includes weight and age structure (jaw section).
- Anglers not reporting a harvested Paddlefish will not be eligible to purchase a Paddlefish tag the following year.
- It is unlawful to possess an untagged Paddlefish or part of one. If anglers fillet a Paddlefish, they must keep the part of the fish back and dorsal fin (back fin) where the tag is attached and sealed to the fish.
- Angler tag must remain with processed fish until consumed.
- It is unlawful for an individual to sell any portion of a Paddlefish including eggs (processed or unprocessed) as prescribed by the Fish & Wildlife Commission.

### Standard Paddlefish Regulations

**Daily and Possession Limits and Tags:** One Paddlefish per season per angler. Anglers may select only one of the following three areas, and may only fish in the area selected:

#### **1) Missouri River upstream from Fort Peck Dam to Fort Benton (White Tag)**

Upper Missouri Paddlefish Drawing: Paddlefish harvest tags will be available via lottery draw for the Upper Missouri River Paddlefish season (White Tag). Anglers need to apply individually or as a party (up to five people). Applications can be submitted either on-line at [fwp.mt.gov](http://fwp.mt.gov) or at an FWP office. You may purchase one bonus point per year; either at the time of application or between July 1 and September 30 of the current year. If you do choose to purchase a bonus point at the time of application, you may not purchase one from July - September.

- Applications must be received by FWP no later than 5:00 PM March 26, 2021.
- Unsuccessful applicants can still catch-and-release Paddlefish with their Conservation, Fishing and Paddlefish Licenses.
- Paddlefish Snagging: open May 1 to June 15 from 6:00 AM to 9:00 PM (MST) daily.
- Catch-and-release snagging: open May 1 to June 15 from 6:00 AM to 9:00 PM. Proof of purchase of a white (or Upper Missouri River) Paddlefish License is required for catch-and-release fishing.
- All Paddlefish caught while catch-and-release fishing must be released immediately, may not be gaffed, and must remain at least partially submerged in water at all times (to avoid injury to the fish).

#### **2) Fort Peck Dredge Cuts (west of Park Grove Bridge and Nelson Dredge) (Blue Tag)**

- Bow and Arrow: open July 1 through August 31 for Paddlefish. One Paddlefish per angler. An unused blue Paddlefish tag is required to fish for Paddlefish.
- Snagging: no snagging allowed, this is an archery only season.

**3) Yellowstone River from Bighorn River confluence to Intake Dam (not including Intake Fishing Access Site), downstream of Intake Fishing Access Site to North Dakota state line, Powder River downstream of Highway 10 bridge, and Missouri River downstream of Fort Peck Dam (Yellow Tag)**

- Fishery is managed under a harvest target so annual harvest will not exceed 1,000 Paddlefish. FWP will announce a 24-hour closure of the harvest season through a public news release. Closure can be immediate at Intake FAS (Intake Dam to ½ mile downstream) to prevent exceeding the estimated harvest target. Other yellow tag areas will close as noted in the 24-hour notice. For current information on harvest status call the Miles City FWP office at 406-234-0900.
- Following announcement of the harvest closure, catch-and-release snagging will be allowed, at Intake Fishing Access Site only, for 10 consecutive calendar days or through June 30, whichever comes first.
- The Montana nonprofit corporation designated to accept Paddlefish egg donations in exchange for a free fish cleaning service, in accordance with guidelines developed and implemented through the annual Memorandum of Understanding, is authorized to accept and transport lawfully taken and tagged Paddlefish donated by the angler. Paddlefish harvested on the Yellowstone River between the Burlington Northern Railroad Bridge at Glendive and the North Dakota state line are eligible for donation to the cleaning station at Intake FAS.
- **Paddlefish Harvest Days:** open Tuesdays, Wednesdays, Fridays and Saturdays from May 15 through June 30 from 6:00 AM to 9:00 PM (MST) daily, unless closed earlier by FWP.
- It is unlawful to release a Paddlefish on a harvest day during the Paddlefish season.
- An unused yellow Paddlefish tag is required to fish for Paddlefish. The tag must be properly placed on the first Paddlefish caught and landed.
- Paddlefishing closed Sundays, Mondays and Thursdays (see exception under Intake Fishing Access Site below).

**Intake Fishing Access Site (Intake Dam to ½ mile downstream)**

- **Paddlefish Catch-and-Release Days:** open Sundays, Mondays and Thursdays from May 15 through June 30 from 6:00 AM to 9:00 PM (MST) daily, unless closed earlier by FWP.
  - All Paddlefish caught on catch-and-release days must be released immediately, may not be gaffed, and must remain at least partially submerged in water at all times (to avoid injury to the fish).
  - Evidence of purchasing a current year yellow Paddlefish tag must be in possession to catch-and-release snag for Paddlefish.
  - Bow and arrow fishing unlawful on catch-and-release days.
- **Paddlefish Harvest Days:** open Tuesdays, Wednesdays, Fridays and Saturdays from May 15 through June 30 from 6:00 AM to 9:00 PM (MST) daily, unless closed to harvest earlier by FWP.
  - It is unlawful to release a Paddlefish on a harvest day during the Paddlefish season.
  - An unused yellow Paddlefish tag is required to fish for Paddlefish. The tag must be properly placed on the first Paddlefish caught and landed
  - Closed to fishing, snagging or landing Paddlefish from boats/vessels during the open Paddlefish season (i.e. May 15 through June 30 or earlier as posted on site).

## Eastern District Standard Daily and Possession Limits

Each angler may take all of the limits listed in the chart, unless otherwise noted in the Eastern District Exceptions. For species not listed, there are no limits on the number of fish that may be taken or possessed.

Anglers who move from one fishing water to another may possess the limit of fish allowed only for the water on which they are currently fishing.

If you don't find the water you are looking for, use the Standard Daily & Possession Limits on p 84.

	Species	Daily and Possession Limits
<b>T R O U T</b>	<b>Brook Trout</b>	10 daily and in possession.
	<b>Combined Trout</b> includes Brown Trout, Rainbow Trout, Golden Trout and Arctic Grayling	Lakes/Reservoirs: 5 daily and 10 in possession, includes Cutthroat Trout.  Rivers/Streams: 5 daily and in possession.
	<b>Cutthroat Trout</b>	Lakes/Reservoirs: included in the "Combined Trout" daily and possession limit.  Rivers/Streams: all Cutthroat Trout must be released immediately.
	<b>Lake Trout</b>	3 daily and 6 in possession.
	<b>Bass</b>	5 daily and in possession.
	<b>Burbot (Ling)</b>	5 daily and in possession.
	<b>Channel Catfish</b>	10 daily and 20 in possession.
	<b>Crappie</b>	15 daily and 30 in possession.
	<b>Northern Pike</b>	10 daily and in possession.
	<b>Paddlefish</b>	1 per season and in possession. Tag required.
	<b>Pallid Sturgeon</b>	None - this is an endangered species and all fish must be released promptly, with little or no delay. All waters are closed to fishing for Pallid Sturgeon.
	<b>Salmon</b> (Kokanee & Chinook)	5 daily and 10 in possession.
	<b>Sauger/Walleye</b>	5 daily and 10 in possession.
	<b>Shovelnose Sturgeon</b>	5 daily and in possession, none over 40 inches.
	<b>Tiger Muskie</b>	1 daily and in possession, must be over 40 inches.
	<b>Whitefish</b>	20 daily and 40 in possession.

### 2021 GENERAL FISHING SEASON

<b>Eastern District</b>	Rivers and Streams	Lakes and Reservoirs
	Open all year	Open all year

If you don't find the water you are looking for listed in the district exceptions, use the standard regulations for the district you are fishing in.

## Eastern District Exceptions To Standard Regulations

Check the following list of waters for the body of water you intend to fish in the Eastern District. If the body of water is not found in the listing of Exceptions, all of the Eastern District standard seasons, daily/possession limits, and statewide regulations apply. Standard regulations apply for species not listed in the exceptions.

### Waterbody/Section

### Exceptions to Standard Regulations

#### BIGHORN RIVER (east of Billings) -----

##### Entire river

- Sauger/Walleye: 5 daily, only 2 may be a Sauger. Possession limit is 10, only 4 may be Sauger.

#### BOXELDER RESERVOIR aka Bolster Dam (Sheridan County) AIS -----

- Yellow Perch: 25 daily and 50 in possession.

#### FORT PECK DREDGE CUTS (west of Park Grove Bridge and Nelson Dredge) AIS -----

- Bow and Arrow: open July 1 through August 31 for Paddlefish. 1 per season and in possession. An unused blue Paddlefish tag is required to fish for Paddlefish.
- Combined trout: 2 Trout daily and in possession.
- Hook and Line/Setlines: 2 lines with 2 hooks per line on open water and 6 lines with 6 hooks per line through the ice.
- Snagging: no snagging allowed.

#### FORT PECK RESERVOIR AIS -----

##### Fort Peck Dam to Beauchamp Creek and CMR Trail 837

- Sauger/Walleye: 5 daily, only 2 may be a Sauger. Possession limit is 10, only 4 may be Sauger.
- Spearing: Chinook Salmon and Lake Trout may be taken by spear or gig through the ice December 1 through March 31.
- Snagging: allowed only for Chinook Salmon from October 1 through November 30.

#### HOME RUN POND (Glasgow) -----

- Open to fishing for anglers 14 years of age or younger only. One rod per child.

#### JUDITH RIVER (from Hwy 81 downstream to mouth) -----

- Sauger/Walleye: 5 daily, only 2 may be Sauger. Possession limit is 10, only 4 may be Sauger.

#### LAKE ELMO AIS -----

- Bow and arrow fishing prohibited.

#### MARIAS RIVER -----

- Sauger/Walleye: 5 daily only 2 may be a Sauger. Possession limit is 10, only 4 may be Sauger.
- Combined trout: 5 daily and in possession, only 1 over 18 inches.

#### MEDICINE LAKE NATIONAL WILDLIFE REFUGE (Sheridan County) -----

- Refuge open to fishing year-round.
- Consult refuge specific regulations available at the office, informational kiosks, or online: [fws.gov/refuge/Medicine\\_Lake/visit/rules\\_and\\_regulations.html](https://fws.gov/refuge/Medicine_Lake/visit/rules_and_regulations.html)

If you don't find the water you are looking for, use the Standard Daily & Possession Limits on p. 84.

Eastern District

## Waterbody/Section Exceptions to Standard Regulations

### MISSOURI RIVER

#### Entire river

- Snagging: it is unlawful to snag for fish other than Paddlefish on the Missouri River downstream from Fort Benton; any fish other than Paddlefish must be immediately released alive.

#### Upstream from Fort Peck Dam to Fort Benton

- Sauger/Walleye: 5 daily, only 2 may be a Sauger. Possession limit is 10, only 4 may be Sauger.

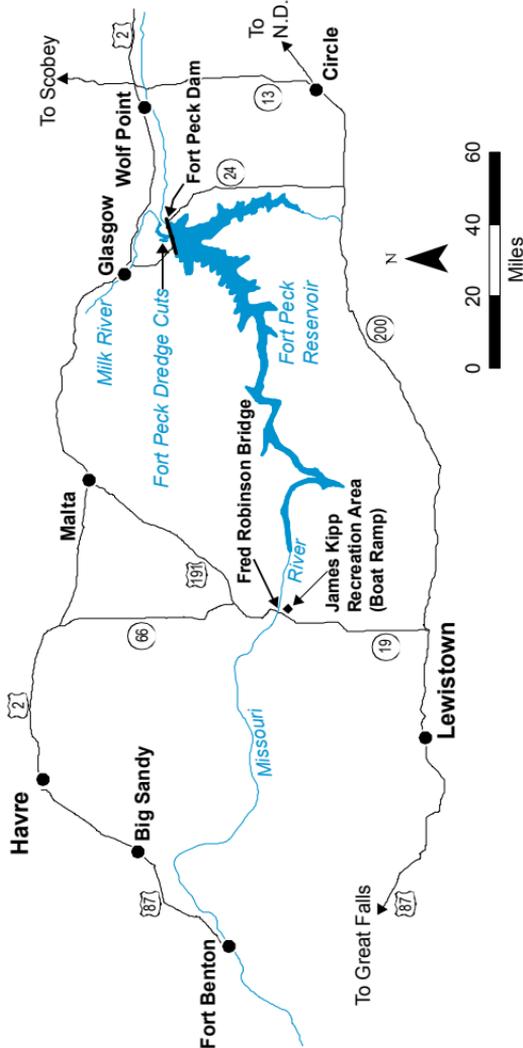

#### Fort Peck Dam to the mouth of the Milk River

- Combined trout: 2 trout daily and in possession.
- Hook and Line/Setlines: 2 lines with 2 hooks per line on open water and 6 lines with 6 hooks per line through the ice.

#### Downstream from Fort Peck Dam near Duck Island as posted

- Closed from March 1 through July 31 to fishing and wading as posted.

## Missouri River Upstream from Fort Peck Dam

 AIS Status: Eurasian Watermilfoil (Fort Peck) and Curlyleaf Pondweed

**MUSSELSHELL RIVER****Downstream from where North and South forks meet to confluence with Fort Peck**

- Sauger/Walleye: 5 daily, only 2 may be Sauger. Possession limit is 10, only 4 may be Sauger.
- Channel Catfish: 10 daily and in possession

**POWDER RIVER****Downstream from Highway 10 Bridge**

- Snagging: unlawful to snag for fish other than Paddlefish; any fish other than Paddlefish must be immediately released alive.

**ROSS RESERVOIR (Blaine County)**

- Open third Saturday in May through November 30.

**SPOTTED EAGLE POND (Miles City)**

- 5 daily and in possession, any combination of species.

**TONGUE RIVER** **Tongue River Reservoir to Wyoming State Border**

- Fish species allowed for use as live bait are: Fathead Minnow, Flathead Chub, Longnose Dace, Lake Chub, Creek Chub, White Sucker, and Longnose Sucker.
- Sauger/Walleye: 5 daily only 1 may be a Sauger and 10 in possession only 2 may be Sauger.

**Twelve Mile Dam Fishing Access Site (T&Y Dam)**

- Hook and Line/Setlines: 2 lines with 2 hooks per line all year.

**TONGUE RIVER RESERVOIR** 

- Fish species allowed for use as live bait are: Fathead Minnow, Flathead Chub, Longnose Dace, Lake Chub, Creek Chub, White Sucker, and Longnose Sucker.
- Crappie: 30 daily and 60 in possession.
- Sauger/Walleye: 5 daily only 1 may be a Sauger and 10 in possession only 2 may be Sauger.
- Hook and Line/Setlines: 6 lines with 6 hooks per line through the ice.

**WARM SPRINGS CREEK (Fergus County)**

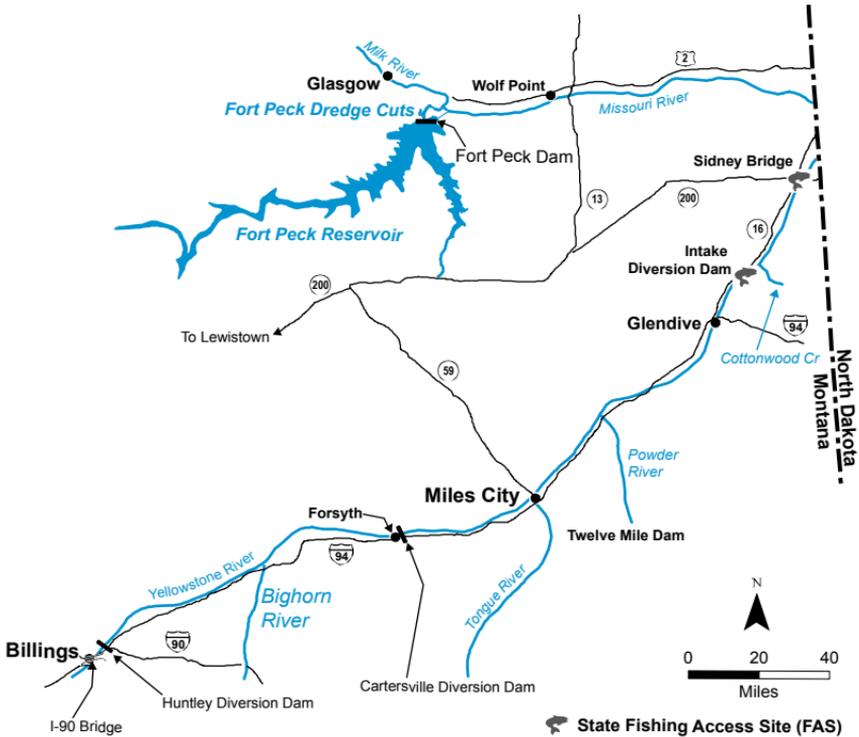

- Combined trout: 5 daily and in possession, only 1 over 18 inches.

**WIND CREEK (Blaine County)**

- Closed entire year from Clear Creek road crossing to Ross Reservoir Dam.

If you don't find the water you are looking for, use the Standard Daily & Possession Limits on p 84.

# Yellowstone & Lower Missouri Rivers

**AIS Status:** Eurasian Watermilfoil and New Zealand Mudsnail below Fort Peck Dam on the Missouri

## YELLOWSTONE RIVER

### Entire river

- Smallmouth Bass: 10 daily and in possession.

### I-90 Bridge at Billings to the mouth of the Bighorn River

- Combined trout: 5 daily and in possession, only 1 over 18 inches, all may be Cutthroat Trout.
- Sauger/Walleye: 5 daily only 2 may be a Sauger and 10 in possession only 4 may be Sauger.

### Mouth of the Bighorn River to Cartersville Diversion Dam at Forsyth

- Sauger/Walleye: 5 daily only 2 may be a Sauger and 10 in possession only 4 may be Sauger.

### Downstream from the mouth of the Bighorn River, not including Intake Fishing Access Site

- Snagging: unlawful to snag for fish other than Paddlefish; any fish other than Paddlefish must be immediately released alive.

### Intake Fishing Access Site

- Hook and Line/Setlines: 2 lines with 2 hooks per line all year.

If you don't find the water you are looking for, use the Standard Daily & Possession Limits on p 84.

## Other Statewide Permit Requirements and Laws

**State School Trust Lands:** Your Conservation License provides anglers, hunters and trappers access to legally accessible State School Trust Lands for fishing and hunting. Other recreational activities such as hiking and bird watching still require the \$10 State Lands Recreational Use Permit. These activities cannot, by Federal statute, be covered by the Conservation License. Additional information regarding the rules, regulations, and restrictions governing these activities is available from FWP or contact DNRC at 406-444-2074.

- On lands outside designated campgrounds there is a 2-day camping limit.
- Motorized travel is only allowed on public roads or on designated roads.
- No open fires are allowed except in designated campground fire pits. Contained mechanical heat sources are allowed.

**Aquatic Invertebrates - Crayfish/Mussels:** A valid fishing license is required to harvest crayfish for personal use (see "License/Permit Requirements" for specific license requirements). Crayfish may be taken in traps no larger than 24x12x12 inches. Freshwater mussel harvest or possession is prohibited in the Western and Central Fishing Districts. Mussels may be harvested for personal use in the Eastern Fishing District only. No fishing license is required to harvest mussels.

**Commercial Collection of Aquatic Invertebrates and Mussels:** Persons wishing to collect aquatic invertebrates (such as leeches and aquatic insects) for sale or commercial distribution should contact their regional FWP office for information. In accordance with the Administrative Rules of Montana, Section 12.2.501, it is unlawful to take or possess freshwater mussels or their shells for sale or commercial distribution.

### Commercial Fishing Licenses

#### Bait Fish Seining: Commercial Harvest, \$10 Fee

- Contact regional FWP offices for a Bait Fish Seining License and a list of waters open to commercial seining: \$10 fee per year.
- A Bait Fish Seining License is required:
  - For persons 15 years of age or older to seine for or trap and transport bait fish for commercial purposes in Montana;
  - For any person who seines or traps for or has in his/her possession more than 24 dozen non-game bait fish.
- Non-game bait fish (Fathead Minnow, Flathead Chub, Western Silvery Minnow, Plains Minnow, Emerald Shiner, Longnose Dace, Lake Chub, Creek Chub, Longnose Sucker, and White Sucker) may be harvested commercially and transported in accordance with Administrative Rules of Montana (ARM) Section 12.7.201-12.7.206. See pages 94-95 for live bait fish identification. Live bait fish or leeches may not be imported into Montana for commercial or other purposes unless authorized by FWP. Bait fish may not be exported without FWP authorization. Call 406-452-6181 or go online at [fwp.mt.gov](http://fwp.mt.gov) for more information.

#### Commercial Whitefish Fishing: A permit is required to sell Whitefish.

- **Hook and Line Permits:** Whitefish may be taken by hook and line for sale in the following waters--Flathead Lake north of the Flathead Reservation boundary, Flathead River north of Flathead Lake, Fisher River, Kootenai River, and Whitefish Lake.
- **Net/Seine Permits:** Whitefish may be taken from the Kootenai River and tributaries (within one mile of the Kootenai River). Application required; fee is \$200 plus a \$1,000 bond per year.

**Fishing Contests:** A permit from FWP is required for most fishing contests. Contact your local FWP office for information and an application or download an application from the FWP website.

**Hoop Net Fishing Permit:** A permit is required to use hoop nets. Permits are only available in the Eastern Fishing District. Contact FWP offices in Billings, Glasgow or Miles City for information.

**Import Permits for Fish:** A permit is required to import live fish into Montana. Contact the FWP Fish Health Lab in Great Falls at 406-452-6181 or download an application from the FWP website.

**Indian Reservations and Tribal Lands:** Certain waters on Indian Reservations and Tribal Lands may have special rules and permits. Specific information should be  
Visit [fwp.mt.gov/fish](http://fwp.mt.gov/fish) 89

obtained from Reservation headquarters.

- The State of Montana and Confederated Salish & Kootenai Tribes have entered into a cooperative agreement on the Flathead Reservation. A tribal permit is required to fish on waters within the exterior boundary of the Reservation. Call tribal headquarters at 406-675-2700 for information.
- The State of Montana and the Fort Peck Tribes have entered into a cooperative agreement on the Fort Peck Reservation. A tribal permit is required to fish on waters within the exterior boundary of the reservation. Call tribal headquarters at 406-768-5305 for information.
- A State of Montana Fishing License is required to fish on the Bighorn River inside the boundaries of the Crow Reservation. A tribal permit is not required.

**National Parks:** Certain waters within National Parks have special rules. Specific information may be obtained from the park headquarters. For Glacier National Park, call 406-888-7800 and for Yellowstone National Park, call 307-344-7381.

**Off-Highway Vehicles (OHVs): Residents** – OHVs (ATV, UTV, Dirtbike) must be registered and display a current Off-Highway decal to be used for off-road recreation on public lands (trails, frozen lakes, reservoirs) and a two year \$20 Resident Trail Pass for use on designated roads and trails. To be used on roads (County, state highways, etc.), an OHV must have a license plate and street-legal modifications. Register your OHV with the County Treasurer. **Nonresidents** – OHVs registered in another state must purchase a nonresident permit to operate (anywhere) in Montana. Permits are good for one calendar year, cost \$35 and can be purchased from local vendors (stateparks.mt.gov, OHV Program) or online at [app.mt.gov/als](http://app.mt.gov/als). Contact Montana State Parks OHV Program at 406-444-3750 with questions.

**Private Fish Ponds – License Requirements, \$10 application fee:** A person who owns or lawfully controls a private fish or ornamental pond may obtain a license from FWP to stock the pond with fish. Only lawfully purchased fish may be planted. Contact your local FWP office for more information and an application or download the application from the FWP website. No fishing license is required to fish on licensed, privately stocked fish ponds. Fishing license requirements apply to all other ponds and/or waters on private land.

**Koi and Goldfish Ponds:** must be registered with FWP. Registration forms are available online at [myfwp.mt.gov/fwpub/koiPond](http://myfwp.mt.gov/fwpub/koiPond) or from all FWP offices. There is no fee for registering a pond.

**Unattended Fishing Devices:** Any unattended fishing device (crayfish traps, minnow traps, fish traps, setlines, etc.) must have the angler's name and phone number or ALS number attached to it.

## Motorboat and Vessel Restrictions

The use of vessels and motors may be restricted on some waters. A complete, updated, copy of the Montana Boating Laws is available from any FWP office, or by calling 406-444-2535. Additional restrictions may be posted at access points to specific waters. Contact the County Sheriff's office or federal agency where you will be boating to find out if additional restrictions are in effect.

All passengers under the age of 12 must wear a personal floatation device (PFD) at all times when the motorboat or vessel is in motion if the motorboat or vessel is less than 26 feet long. A wearable, U.S. Coast Guard approved PFD must be available for each occupant. Children 12 years of age or younger may not operate a motorboat or a personal watercraft (jet skis, water bikes, etc. that use a motor or engine to power a water jet pump as the primary source of propulsion and that is designed to be operated by a person standing or kneeling on the vessel) powered by a motor rated at more than 10 horsepower unless accompanied by someone 18 years of age or older. Youths 13 and 14 may not operate those vessels without possessing a valid Montana Motorboat Operator's Safety Certificate or evidence of completing an approved water safety course, unless accompanied by someone 18 years of age or older. A home-study boating course is available from FWP.

Sailboats 12 feet long and longer, and all motorboats and personal watercraft must be registered and numbered. Non-motorized sailboats less than 12 feet long and manually propelled boats, regardless of length, are exempt from registration and taxation. Also exempt are a vessel's lifeboat, government-owned boats, and properly

registered boats from out-of-state or country that will not be in Montana for more than 90 consecutive days.

### **No-Wake Zones on Lakes – Western Fishing District Only**

All watercraft operating on public lakes and reservoirs of 35 surface acres or less within the Western Fishing District are limited to no-wake speed. The Montana Boating Laws booklet contains a complete list of these lakes. Contact your local FWP office for a copy.

All watercraft operating on public lakes and reservoirs greater than 35 surface acres within the Western Fishing District are limited to no-wake speed from the shoreline to 200 feet from the shoreline. No-wake speed is defined as a speed whereby there is no “white” water in the track or path of the vessel or in waves created next to the vessel.

### **General Boating Restrictions**

- Do not anchor a vessel in a position that obstructs a passageway ordinarily used by others.
- Do not operate a vessel within:
  - 20 feet of a designated swimming area marked by white and orange buoys.
  - 50 feet of a swimmer in the water except for boats towing water skiers.
  - 75 feet of an angler or a waterfowl hunter unless it is unavoidable. If unavoidable, travel at no-wake speed or at the minimum speed necessary to maintain upstream progress.
  - 200 feet of a diver's flag.
- Motorboats and vessels 16 feet and longer (except canoes and kayaks) must also have a throwable type IV PFD on board.
- It is unlawful to operate or be in actual physical control of a motorboat while under the influence of alcohol or drugs.
- All motorboats and vessels must carry equipment as required by the Montana Boating Laws.

**Boaters:** This flag means there are scuba divers in the area. Montana law requires that motorboats stay at least 200 feet away from a **DIVER DOWN** flag. Violators may be subject to a fine of \$500 or 6 months imprisonment, or both. MCA 23-2-525.

## **Definitions**

**ANGLING/FISHING:** Angling or fishing means to capture or attempt to capture fish, or the act of a person possessing any instrument, article or substance for the purpose of taking fish in any location that a fish might inhabit.

**ARTIFICIAL LURE:** Any man-made lure (including flies) that imitates natural bait. Artificial lures may have a scent infused or applied. Artificial lures do not include fish eggs, any natural or artificial food such as corn and marshmallows, any products that are derivatives of natural foods, any chemically treated or processed natural bait such as salted minnows, nor any artificial dough, paste or edible baits.

**ATTENDED LINE:** A line with/without a pole held in hand or under immediate control. When used through the ice, the angler need not be in immediate control but must be in the vicinity and in visual contact with the line.

**CALENDAR DAY:** A 24-hour period from midnight to midnight.

**DAILY LIMIT:** The number of fish that may be legally taken during a calendar day. A fish when landed and not immediately released becomes part of the bag limit of the person originally hooking the fish even if the fish is donated to another person. If you receive fish from another angler, those fish also become part of your daily limit.

**DRAINAGE:** All of the waters comprising a watershed, including tributary rivers, streams, sloughs, ponds and lakes that contribute to the water supply of the watershed.

**DRESSED FISH:** A fish which has been cleaned by removing the entrails. Dressed fish also may be filleted and/or have their head, gills and scales removed.

**ENDANGERED SPECIES:** Species in imminent danger of extinction throughout their range and listed by state or federal regulation.

**FISHING ACCESS SITE (FAS):** An area adjacent to a stream or lake which has been acquired by FWP to allow anglers access to a water body. Fishing access sites are funded in part by fishing license fees.

**FISHING FROM BOATS/VESSELS:** Fishing while on any boat or vessel. When a water is designated as closed to fishing from boats/vessels, anglers may not fish from a boat or vessel, but may use a boat or vessel to access wade fishing opportunities. An angler must be completely out of the boat or vessel while wade fishing.

**FLOAT FISHING:** Any fishing from a boat or vessel, or wade fishing when fishing access is gained by boat or vessel. When a water is designated as closed to float fishing, an angler may not fish from a boat, and may not wade fish in the river or stream, or from the bank or shoreline of the river or stream, when access is gained by boat or vessel.

**FLOAT OUTFITTING:** The operation of any boat or vessel for the commercial purpose of float fishing by a fishing outfitter or fishing guide.

**GAFF:** A hook attached directly to a pole (metal or wooden shaft) or other device. Use of gaffs is permitted only to help land a fish that was lawfully hooked.

**GAME FISH:** All species of the family Salmonidae (Trout, Salmon, Arctic Grayling, Whitefish, Cisco and Chars); all species of the genus Sander (Sauger and Walleye); all species of the genus Esox (Northern Pike and Tiger Muskie); all species of the genus Micropterus (Bass); all species of the genus Polyodon (Paddlefish); all species of the family Acipenseridae (Sturgeon); the genus Lota (Burbot or Ling); the species *Perca flavescens* (Yellow Perch); all species of the genus Pomoxis (Crappie); and the species *Ictalurus punctatus* (Channel Catfish).

Bull Trout are defined as any trout with white leading margins on the lower fins and no markings on the dorsal fin. (Note: it is unlawful to intentionally fish for Bull Trout in any waters unless specifically authorized in the Western Fishing District Regulations.)

Cutthroat Trout are defined as any trout with a red or orange stripe under its jaw. See the inside cover for an identification (ID) key.

Sauger are defined as any Sander (Sauger/Walleye) with multiple small, distinct black spots on the spiny (first) dorsal fin ray membranes.

**HOOK:** A hook is a single, double, or treble point attached to a single shank. A lure with multiple hooks is still considered a single hook.

**HOOP NET:** A cylindrical or conical net distended by a series of hoops or frames, covered by web netting. The net has one or more internal funnel-shaped throats whose tapered ends are directed inward from the mouth

**LEGALLY TAKEN:** Any fish caught using legal methods and not immediately released alive.

**LENGTH:** Measure the greatest length from the tip of the nose to the tip of the tail. Place the fish on a flat surface and squeeze the lobes of the tail fin together so as to achieve the greatest length. Do not measure over the curve of the body.

**LIVE BAIT:** Live bait are animals such as meal worms, red worms, night crawlers, leeches, maggots, crayfish, reptiles, amphibians and insects, which may be used as live bait on all waters not restricted to artificial flies and lures. Live bait includes fish only as specified in Live Bait sections for the Central and Eastern Fishing Districts. No live fish can be used as live bait in the Western Fishing District. Sculpins may not be used as bait live or dead in the Western Fishing District.

**MAINSTEM:** In a drainage, the mainstem is the primary stream or river into which most tributaries flow.

**MOTORBOAT:** A vessel, including a personal watercraft or pontoon, propelled by any machinery/motor/engine of any description, whether or not the machinery/motor/engine is the principal source of propulsion. The term includes boats temporarily equipped with detachable motors/engines.

**NON-GAME FISH:** Any wild fish not otherwise legally classified by statute or regulation.

**NOODLING:** A technique for catching fish by hand. It is unlawful to catch fish by hand in any district.

**PERMANENT RESIDENCE:** The physical abode or structure you maintain as your principal, legal residence. A person may have only one permanent residence.

**POSSESSION LIMIT:** The number of fish that may be possessed at any time in any form: fresh, stored in freezers or lockers, salted, smoked, dried, canned, or preserved.

**RESERVOIR:** A body of water artificially impounded behind a man-made dam that extends upstream to the mouth of its inlet stream(s) or river. Reservoirs do not include waters incidentally impounded on a stream or river by a structure such as a check dam for irrigation, a headgate to divert water for irrigation, or similar structures.

Under normal operations, reservoir pool elevation, surface acreage and the mouths of the inlet stream(s) are expected to vary throughout the year. An imaginary line connecting the reservoir shoreline across the mouth of the stream marks the boundary between reservoir and stream/river, and the boundary will move as reservoir levels change. Streams are defined by a sloped streambed that results in a defined current flow between two discernible stream banks. Stream regulations apply upstream from the mouth of the reservoir and often are managed under seasons, limits and special regulations that differ from the reservoir regulations.

**SALMONIDAE:** Any species of Trout, Char, Salmon, Arctic Grayling, Cisco, or Whitefish. Wild salmonids possess an adipose fin (small fleshy on the back near the tail); hatchery-reared fish sometimes have had this fin intentionally removed.

**SEINE:** A net, usually suspended between two poles, which is pulled through the water to capture fish for bait. Seines used for this purpose must not exceed 12 feet in length and 4 feet in width.

**SETLINE:** A line or lines with or without a pole set to catch fish without the angler being present or within immediate control. The angler's name, phone number, or 9 or 9/10 digit ALS number must be attached.

**SNAGGING:** A technique of angling in which a hook or hooks are cast into the water and manipulated to embed the hook or hooks into the body of the fish. You have snagged a fish if: (a) you are fishing in a manner that the fish does not voluntarily take the hook in its mouth, or (b) if you accidentally hook the fish in a part of the body other than the mouth.

**SPEAR:** Any sharp-pointed instrument, with or without barbs, used to capture and/or kill fish by penetrating the body. Usually a spear consists of a shaft with a sharp head or point. Spears may be hand-propelled or propelled with a spring or rubber band.

**SPECIES OF CONCERN:** Native Montana species with limited habitats and/or limited numbers in the state. Such species are at risk of becoming threatened.

**STREAM MOUTH:** The downstream point defined as a straight line running from the most downstream extremity on one stream bank to the most downstream extremity on the other stream bank or a point defined and marked by FWP (also see Reservoir definition).

**THREATENED SPECIES:** Species that may become endangered within the foreseeable future without conservation measures.

**TRIBUTARY:** Any watercourse that flows into a body of water, including tributaries to a tributary.

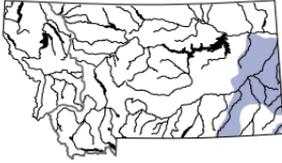

**VESSEL:** Every type of watercraft or boat capable of being used as a means of transportation on water except devices that are propelled entirely by kicking fins and the floater sits in the water, such as inner tubes (motor vehicle type), float tubes (belly boats), air mattresses and sailboards when used without mechanical propulsion by an individual. Contact your local warden for more information.

**WASTE OF FISH OR GAME:** To purposely waste any part of a game fish suitable for food by transporting, hanging, or storing the carcass or flesh in a manner that renders it unfit for human consumption; or, to abandon or dispose of, in the field or water, the carcass or flesh of any game fish suitable for food; or, to use the carcass or flesh of any game fish as bait except as authorized in the bait regulations.

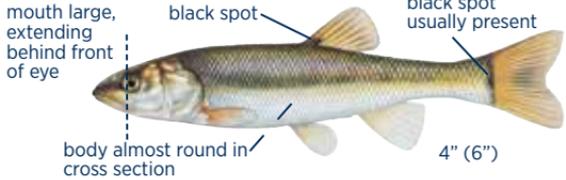

# Bait Fish Species Identification

There are 10 species of fish that may be used for bait. The following images are for help in identification (for more details see the "Live Bait Fish Identification" brochure available online or at Regional offices). See the regulations concerning bait use in each District (pages 22, 50 and 78).

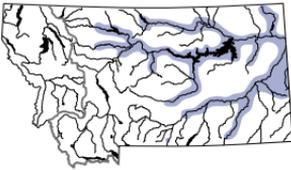

## CREEK CHUB

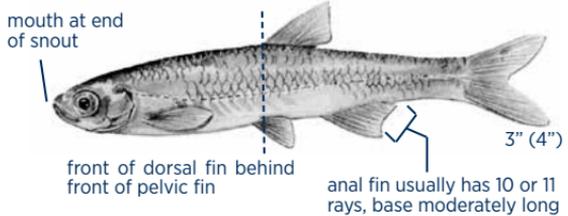

**HABITAT:** Typically creeks. Less common in rivers and shallows of lakes.

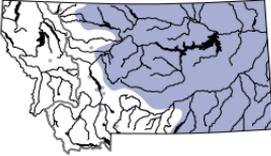

## EMERALD SHINER

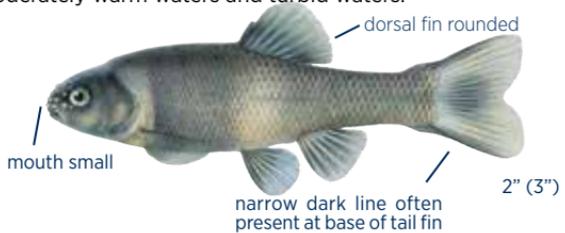

**HABITAT:** Open water of large streams, reservoirs and lakes.

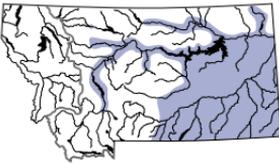

## FATHEAD MINNOW

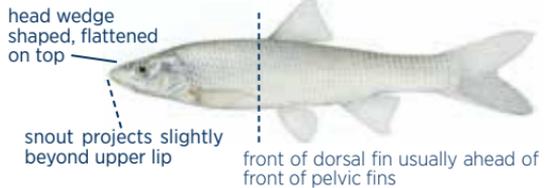

**HABITAT:** Clean cold streams and lakes; sometimes moderately warm waters and turbid waters.

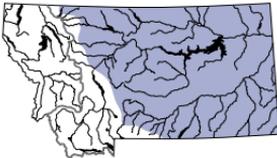

## FLATHEAD CHUB

**HABITAT:** Mostly turbid rivers and streams.

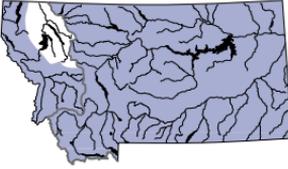

## LAKE CHUB

**HABITAT:** Mostly small streams at lower elevations; to a lesser extent, larger streams and lakes.

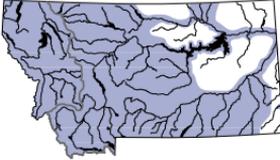

## LONGNOSE DACE

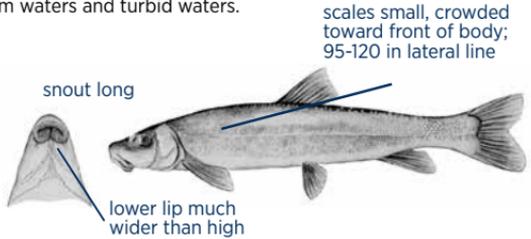

**HABITAT:** Riffle areas of streams and rivers; to a lesser extent, lakes.

## LONGNOSE SUCKER

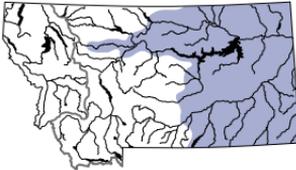

**HABITAT:** Clean cold streams and lakes; sometimes moderately warm waters and turbid waters.

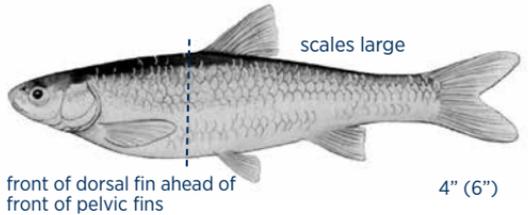

## WESTERN SILVERY MINNOW

## PLAINS MINNOW

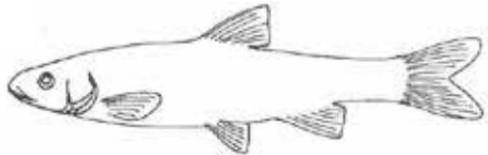

**HABITAT:** Slower portions of medium-sized to larger streams. Sometimes found in creeks and impoundments.

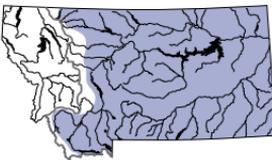

The **Western Silvery Minnow** and the **Plains Minnow** are very similar. The Western Silvery Minnow is more streamlined

Outline of Plains Minnow

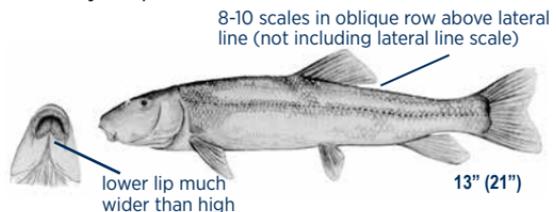

and has larger scales than the Plains Minnow. Scale counts from lateral line to lateral line under the belly of the fish might be 11 to 17 on the Western Silvery Minnow, and 15 to 22 on the Plains Minnow. Distinguishing these species when live is understood to be very difficult.

## WHITE SUCKER

**HABITAT:** All kinds of lakes and streams but avoids rapid current-very adaptable.

# FISH IDENTIFICATION KEY If you don't know, let it go!

**CUTTHROAT TROUT** are frequently mistaken for Rainbow Trout (*see pictures below*):

1. Turn the fish over and look under the jaw. Does it have a red or orange stripe? If yes—the fish is a Cutthroat Trout. Carefully release all Cutthroat Trout that cannot be legally harvested (see page 15, releasing fish).

**BULL TROUT** are frequently mistaken for Brook Trout, Lake Trout or Brown Trout (*see below*):

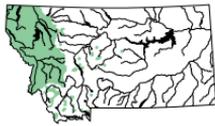

1. Look for white edges on the front of the lower fins. If yes—it may be a Bull Trout.
2. Check the shape of the tail. Bull Trout have only a slightly forked tail compared to the lake trout's deeply forked tail.
3. Is the dorsal (top) fin a clear olive color with no black spots or dark wavy lines? If yes—the fish is a Bull Trout. Carefully release Bull Trout (*see page 15, releasing fish*).

## MONTANA LAW REQUIRES:

- All Bull Trout must be released promptly, with little or no delay, in Montana unless authorized. See Western District regulations.
- Cutthroat Trout must be released promptly, with little or no delay, in many Montana waters. Check the district standard regulations and exceptions to know where you can harvest Cutthroat Trout.

## NATIVE FISH

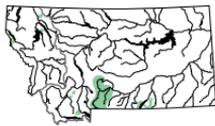

### Westslope Cutthroat Trout Species of Concern

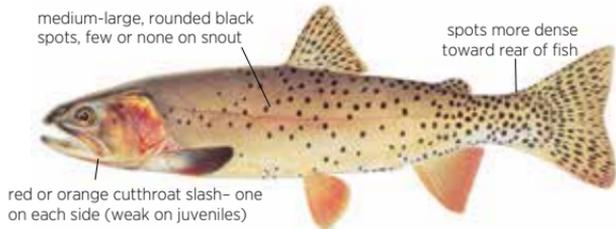

Average Size: 6"-12"

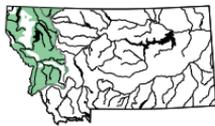

### Yellowstone Cutthroat Trout Species of Concern

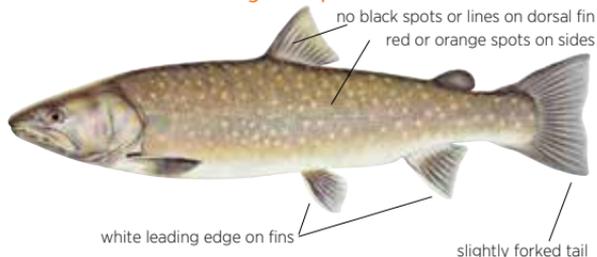

Average Size: 6"-12"

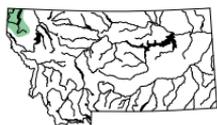

### Bull Trout A Threatened Species listed under the Endangered Species Act

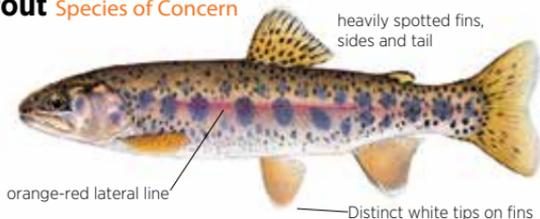

Average Size: 16"-22"

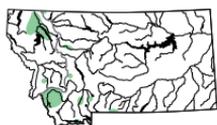

## Columbia River Redband Trout *Species of Concern*

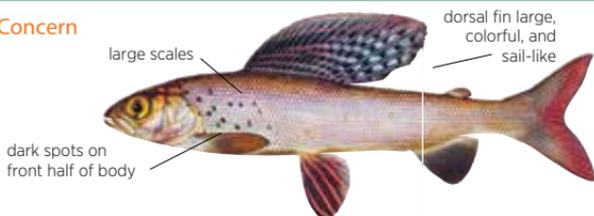

Average Size: 6"-10"

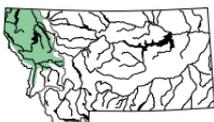

## Arctic Grayling *Species of Concern*

Average Size: 6"-12"

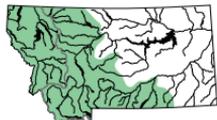

## Northern Pikeminnow

Average Size: 7"-14"

## Mountain Whitefish

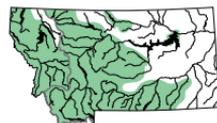

Average Size: 6"-12"

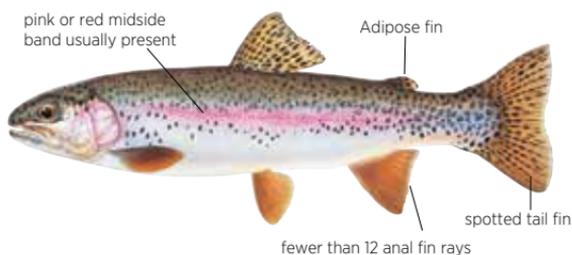

## NON-NATIVE FISH

### Rainbow Trout

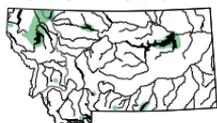

Note: Native populations of Columbia River Redband Trout exist in localized waters of northwestern Montana.

Average Size: 8"-16"

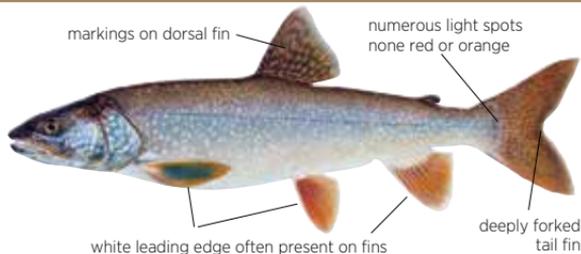

### Lake Trout

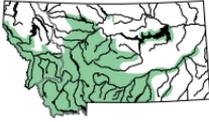

Note: Native populations of Lake trout exist in a few isolated waters of southwestern Montana.

Average Size: 14"-20"

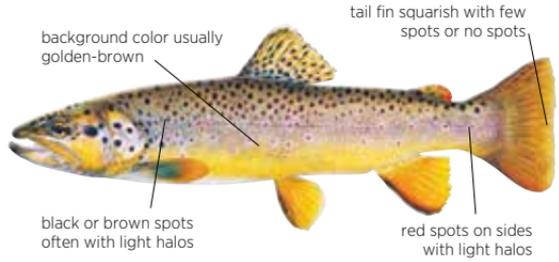

# NON-NATIVE FISH

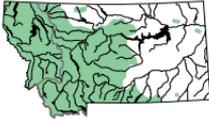

## Brown Trout

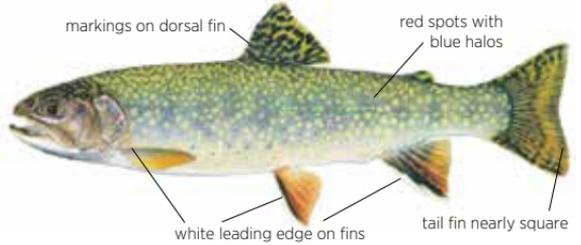

Average Size: 12"-16"

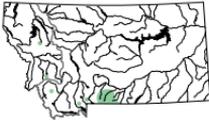

## Brook Trout

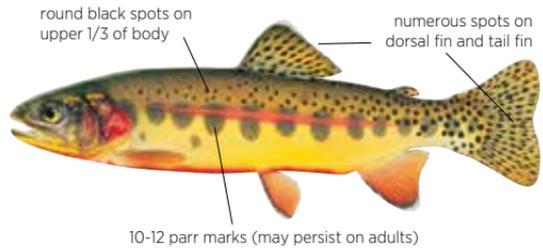

Average Size: 6"-12"

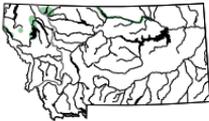

## Golden Trout

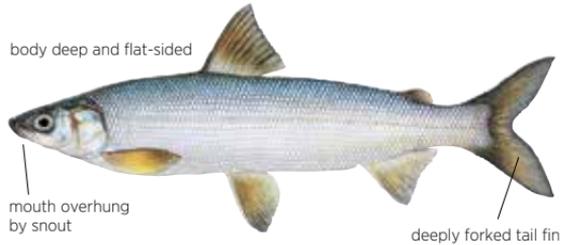

Average Size: 6"-12"

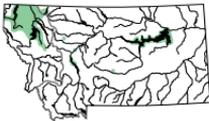

## Lake Whitefish

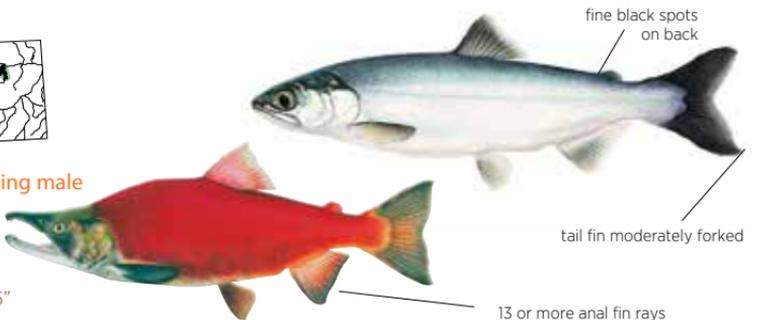

Average Size: 19"-27"

## Kokanee

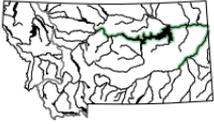

Spawning male

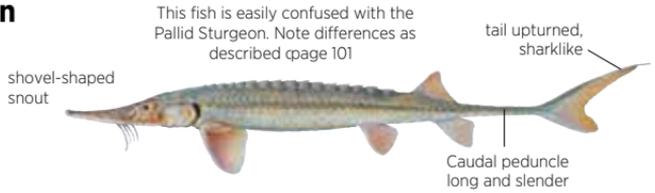

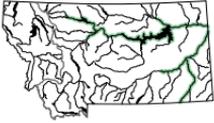

Average Size: 8"-16"

**Pallid Sturgeon** An Endangered Species listed under the Endangered Species Act

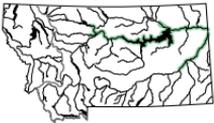

Average Size: 60"

**Shovelnose Sturgeon**

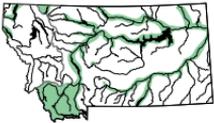

Average Size: 20"-32"

**Paddlefish** Species of Concern

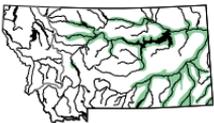

Average Size: 55"-65"

**Burbot**

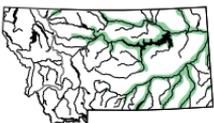

Average Size: 16"-24"

**Channel Catfish**

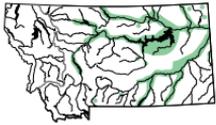

Average Size: 14"-20"

**Sauger** Species of Concern

Average Size: 10"-16"

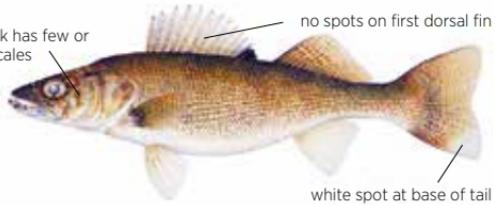

# NON-NATIVE FISH

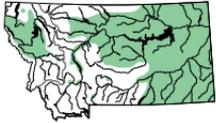

Average Size: 14"-18"

## Walleye

cheek has few or no scales

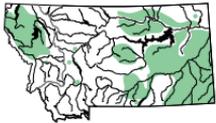

Know the difference between Sauger and Walleye

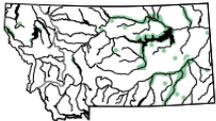

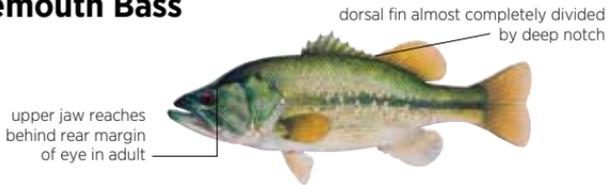

Average Size: 6"-10"

## Yellow Perch

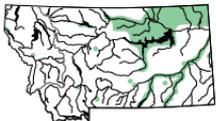

Average Size: 10"-16"

## Largemouth Bass

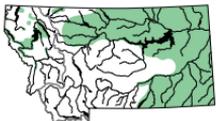

Average Size: 8"-14"

## Smallmouth Bass

Average Size: 6"-12"

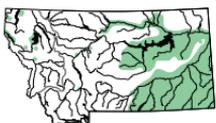

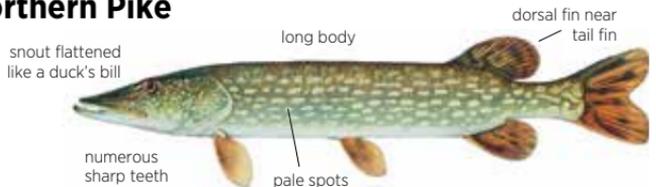

## Black Crappie

Note: Native populations of Northern Pike may exist in localized waters of north-central Montana.

Average Size: 18"-26"

## Northern Pike

Average Size: 7"-10"

## Black Bullhead

# Help protect native species

If you don't know, let it go!

## Key to identification:

**PALLID STURGEON** are frequently mistaken for Shovelnose Sturgeon (see pictures below)

1. Look to see if the outer barbels are more than twice the length of the inner barbels. Are the barbels attached closer to the mouth than to the tip of the snout? If yes—the fish is a Pallid Sturgeon. Carefully release all Pallid Sturgeon (see page 15).
2. Sturgeon are difficult to distinguish. The Shovelnose Sturgeon is smaller and more common. Montana FWP recommends that all sturgeon be released if you are unsure of the species.

**SAUGER** are frequently mistaken for Walleye (see pictures below):

1. Look for multiple small, distinct black spots on the spiny dorsal fin (first fin on top). If yes—it is a Sauger.

## MONTANA LAW REQUIRES:

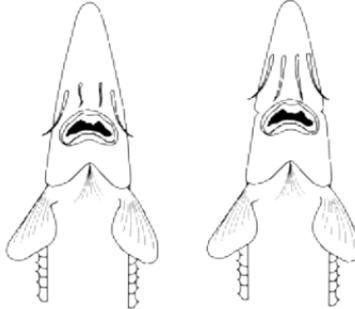

- All Pallid Sturgeon must be released immediately and all sturgeon longer than 40 inches must be released immediately.
- Only two Saugers may be kept on the Missouri River upstream from Fort Peck Reservoir, on Fort Peck Reservoir, and on the Yellowstone River upstream from Forsyth at the Cartersville Diversion Dam.

## Know the difference between Pallid and Shovelnose Sturgeon:

### Pallid Sturgeon

Outer barbels 2 times the length of the inner barbels. (Be alert for broken barbels).

Barbels attached close to mouth, about 1/3 the distance between mouth and tip of snout.

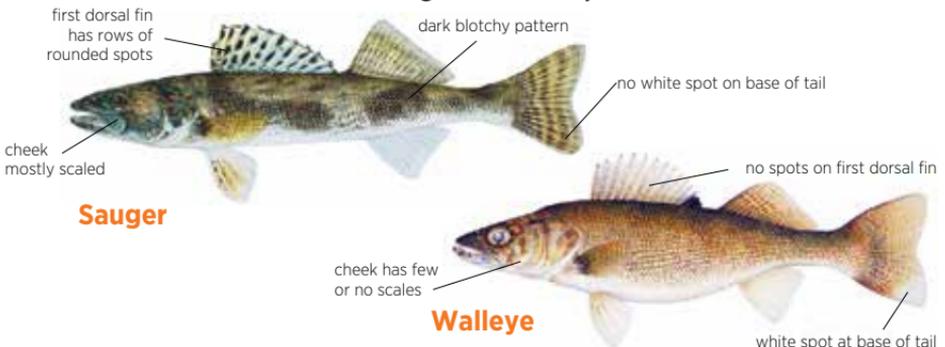

### Shovelnose Sturgeon

Outer barbels barely longer than inner barbels.

Barbels attached about 1/2 the distance between mouth and tip of snout.

The Pallid Sturgeon is a fish of concern in Montana and it is listed as an Endangered Species by the U.S. Fish and Wildlife Service. Pallids are a bottom-dwelling fish of the Missouri and Yellowstone Rivers, preferring strong currents flowing over a sandy or gravely river bottom. Learn to distinguish the Pallid from the Shovelnose Sturgeon, a smaller and more common species. Because the sturgeon are hard to identify, Montana FWP recommends that all sturgeon be released if you're unsure of the species.

## Know the difference between Sauger and Walleye:

## Montana Fish Records

Visit [fwp.mt.gov/fish/anglingData/records/](http://fwp.mt.gov/fish/anglingData/records/) for a complete list of Montana fish records – or call 406-444-2449.

If you think you have legally caught a fish in Montana that may be a state record:

- To prevent loss of weight, don't clean or freeze the fish. Keep the fish cool – preferably on ice. Take a picture of the fish.
- Get the fish weighed as soon as possible on a certified scale (found in grocery or hardware stores, etc.) and witnessed by an observer. Get an affidavit from the store if no FWP official is present. Measure the length.
- Contact the nearest FWP office to have the fish positively identified and to determine if it is a state record.

### Records as of January 1, 2021. Native fish species are shaded.

FISH	Length	Weight lbs.	SITE	ANGLER	DATE
Arctic Grayling	20	3.63	Washtub Lake	Glenn Owens	6/28/03
Big Mouth Buffalo	40.7	57.75	Nelson Reservoir	Craig D. Grassel	6/4/94
Black Bullhead	14.37	2.60	Smiley Slough	Birrell White	6/20/09
Black Crappie	16.7	3.13	Tongue River Reservoir	Al Elser	1973
Blue Sucker	34.56	13.29	Marias River	Jason Karls	4/19/19
Bluegill	11	2.64	Peterson's Stock Dam	Brent Fladmo	6/3/83
Brook Trout	-	9.06	Lower Two Medicine Lake	John R. Cook	1940
Brown Trout	-	29	Wade Lake	E.H. "Peck" Bacon	1966
Bull Trout (Dolly Varden)	37	25.63	Unknown	James Hyer	1916
Burbot	39	17.08	Missouri River	Jeff Eugene Iwen	4/18/89
Channel Catfish	38.75	35.18	Colstrip Surge Pond	John D. Smith	7/7/19
Chinook Salmon	38.125	32.05	Fort Peck Reservoir	Greg Haug	8/16/20
Coho Salmon	25.5	4.88	Fort Peck Reservoir (Face of Dam)	Irven F. Stohl	5/29/73
Cutthroat Trout	-	16	Red Eagle Lake	Wm. D. Sands	1955
Golden Trout	23.5	5.43	Cave Lake	Mike Malixi	7/16/00
Goldeye	-	3.18	Nelson Reservoir	Don Nevrviv	7/4/00
Kokanee Salmon	26.8	7.85	Hauser Lake	John Bomar	9/23/03
Lake Trout	42.5	42.69	Flathead Lake	Ruth Barber	6/23/04
Lake Whitefish	27	10.46	Flathead Lake	Swan McDonald V	8/26/06
Largemouth Bass	22.5	8.80	Noxon Rapids Reservoir	Darin Williams	5/2/09
Mountain Whitefish	23	5.11	Hauser Reservoir	Walt Goodman	10/10/07
Northern Pike	-	37.5	Tongue River Reservoir	Lance Moyer	1972
Northern Pikeminnow	27.125	7.88	Noxon Rapids Reservoir	Darrel Torgrimson	5/28/91
Paddlefish	77	142.5	Missouri River	Larry Branstetter	5/20/73
Pallid Sturgeon		60	Yellowstone River	Gene Sattler	5/13/79
Rainbow Trout	38.62	33.1	Kootenai River	Jack G. Housel, Jr.	8/11/97
Rainbow Smelt	7.1	0.08	Fort Peck Dredge Cuts	Nathan Cooper	2/18/20
Sauger	28.2	8.805	Fort Peck Reservoir	Gene Moore	12/12/94
Shovelnose Sturgeon	39.75	14.125	Missouri River	Chad Buck	5/21/10
Smallmouth Bass	22	7.84	Fort Peck Reservoir	Theron Thompson	10/3/20
Smallmouth Buffalo	38	38	Nelson Reservoir	Brady Miller	4/28/07
Tiger Muskie	50	38.75	Deadmans Basin Reservoir	Leo Cantin	9/2/12
Walleye	35	17.75	Tiber Reservoir	Robert Hart	11/18/07
White Bass	17	2.80	Missouri River	Vernon Pacovsky	10/13/07
White Crappie	18.5	3.68	Tongue River	Gene Bassett	5/10/96
White Sturgeon	75	96	Kootenai River	Herb Stout	1968
Yellow Bullhead	14.0	1.62	Ninepipes Reservoir	Frank Tepp	2/5/15
Yellow Perch	14.375	2.39	Lower Stillwater Lake	Josh Emmert	2/19/06

# CLEAN. DRAIN. DRY.

Nonresident watercraft must have inspection and Vessel AIS Prevention Pass. **Expires on Dec. 31.**  
Pass is not transferable between vessels.

**\$10 non-motorized vessels | \$30 motorized vessels**  
Buy pass online at [CleanDrainDryMT.com](http://CleanDrainDryMT.com)

Protect the waters you love to fish!  
When leaving the water always:

**CLEAN** mud and plants off boat, trailer and fishing gear.

**DRAIN** all water. Drop motor. Pull drain plug.

**DRY** waders, fishing gear and watercraft.

**DISPOSE** unwanted bait in the trash, not in the water.

Learn more at [CleanDrainDryMT.com](http://CleanDrainDryMT.com). Ph: 406-444-2440

### WINNER:

**Audrey Towery, age 7**  
**Arctic Grayling**

by Audrey Towery

The Arctic Grayling is distinguished by its pronounced dorsal fin and striking iridescent coloration. They were once found throughout much of the Missouri River basin above Great Falls, but the only populations that have persisted are in the Big Hole River and Red Rock Creek in SW Montana. In Montana, Arctic Grayling typically mature by age 3 and rarely live beyond 5 years of age. They spawn in the spring over sand and gravel, but do not construct redds (spawning nests) like other coldwater salmonids. FWP and other state and federal agencies, along with cooperating NGO's and private landowners, have collaborated to preserve critical habitat to ensure persistence of Arctic Grayling populations in Montana.

## Take a kid fishing.

It's a rite of passage. A quintessential Montana experience. For both kids and adults, fishing creates memories that will last a lifetime.

### Family Fishing Waters

Montana has 65 Family Fishing Waters managed exclusively for youth or family fishing. Check the **FishMT** tab on the FWP website for all Family Fishing Waters.

### Free Fishing

June 19-20, 2021

On Father's Day weekend anyone can fish without a fishing license. All other restrictions in these Fishing Regulations still apply. See page 13 for more details.

### LET'S GO CATCH SOME FISH!

A basic guide to take kids fishing (for adults who don't have a clue)
