

Mule Deer – HD 380

Draft Changes for 2022-2023 Hunting Regulations:

- Change unlimited mule deer buck permit to limited (draw) mule deer buck permit. The number of available permits would be similar to the number of unlimited permits that have been issued.
- Change antlerless mule deer B license 380-02 restriction language to only valid on private land.
- Southeast portion of the hunting district (between U.S. Hwy. 287 and the Missouri River) would be included in new HD 312.

Biological Implications:

- No biological impacts are expected.

Social Implications:

- These draft changes are being recommended as part of the statewide regulation simplification effort. It is expected that these recommended changes will be acceptable to most individuals.
