

Antelope – HD 413/430

Draft Changes for 2022-2023 Hunting Regulations:

Merge Antelope HD's 413 and 430 to create a new, larger Antelope HD 430.

Biological Implications: Antelope in the two hunting districts can be managed together. Existing license quotas between the districts can be combined.

Social Implications: This change would reduce the number of LPTs and the number of hunting districts across the state.
