

# Antelope – HD 430

## **Draft Changes for 2022-2023 Hunting Regulations:**

Change the antelope license 430-20 quota to 125 either-sex licenses; change the quota range to 50 – 300.

Change the antelope B license 430-30 quota to 75 doe/fawn licenses; change the quota range to 25 – 475.

**Biological Implications:** Combining Antelope HD's 430 and 413 is being considered. This change combines the district's existing license quota and quota range to match the total number of licenses, and reflect the minimum and maximum quota range, from both hunting districts.

**Social Implications:** This change would reduce the number of LPTs and the number of hunting districts across the state.
