

Deer/Elk – HD 413, 432

Draft Changes for 2022-2023 Hunting Regulations:

Merge Deer/Elk HDs 413 and 432 to create a new, larger Deer/Elk HD 413.

Biological Implications: Deer/Elk in the two hunting districts can be managed together. They have had similar habitat types and same season structures for many years.

Social Implications: This change would help reduce the number of hunting districts across the state.
