

Deer/Elk – HD 416/454

Draft Changes for 2022-2023 Hunting Regulations: Merge HDs 416 and 454 into larger HD 416.

Biological Implications: None. Deer/Elk regulations have been similar for many years. Same Elk Management Unit. Survey and inventory data can be successfully combined.

Social Implications: Simplifies Regulations. Result is single HD for entire SW Little Belts.
