

Deer – HD 502

Draft Changes for 2022-2023 Hunting Regulations:

- Maintain the general season either-sex mule deer, either sex white-tailed deer
- Maintain the 502-00 antlerless mule deer B license

Biological Implications:

- Follows species-specific guidelines for current population status in Prairie Breaks population management unit where population is at all time low while recognizing chronic wasting disease management direction.

Social Implications:

- Maintains either-sex harvest opportunities and chronic wasting disease management direction
