

Deer – HD 515

Draft Changes for 2022-2023 Hunting Regulations

- Combine HD570 and HD500 to make a new HD515.
- Combine 500-00 and 570-00 mule deer B licenses that are consistent with the new district

Biological Implications:

- Follows species-specific plan guidelines for current population status

Social Implications:

- Simplify regulations by decreasing the number of hunting districts in Region 5
- Maintains antlerless mule deer opportunity.
