

# Deer – HD 555

## **Draft Changes for 2022-2023 Hunting Regulations**

- Combine deer HD510 with the portion of HD520 south and east of the West Fork of Rock Creek to make a new HD 555. General-season antlered buck mule deer, either-sex white-tailed deer
- Combine mule deer permits 510-00 and with 520-00 in the portion of HD520 south and east of the West Fork of Rock Creek, consistent with the combined hunting districts. General season either-sex mule deer

## **Biological Implications:**

- Follows species-specific plan guidelines for current population status in Southern Mountain population management unit, while incorporating chronic wasting disease management strategies.

## **Social Implications:**

- Simplifies regulations while retaining species-specific plan and chronic wasting disease management direction.
- Maintains antlerless mule deer opportunity.
