

Moose – HD 320

Draft Changes for 2022-2023 Hunting Regulations:

Remove the northeast portion of the Hunting District that sits east of State Highway 359, south of Interstate 90, and west of U. S. Highway 287.

- Moose License 320-00: Antlerless moose. Quota 3; quota range 1-10;
- Moose License 320-50: Antlered bull moose. Quota 4; quota range 1-10;

Biological Implications:

The primary justification for the recommendation is the statewide regulations simplification effort. The HD adjustment would align moose HD 320 with the proposed deer/elk and mountain lion HD 320, and the existing mountain goat HD 320. The adjustment is expected to have no biological impact on moose.

Social Implications:

The recommendation is expected to be acceptable to most hunters and landowners.
