### PROJECT CLARIFICATION

- Both Salmon and Placid units will need to include new breaker boxes along with the connection to the new unit.
- Existing entry station has the standard 200 amp service that serves the buildings. Any electrical permits required are incidental and service shall be reconnected following all current codes and guidelines.
- Internet hard line is already present in the station.
- No new electrical lines will need to be brought into the station.
- Attached are photos of the existing service breaker box and line off service pole.
- Further inspection can be arranged with an onsite visit. Contact Project manager to schedule.
