

Smith River Outfitter Calendar and Commercial Launch Rules

VIII. COMMERCIAL FLOAT TRIPS (from Smith River State Park Biennial Rule 5/20/24)

- A. No person, group or entity may conduct commercial use within the Smith River State Park without first obtaining a commercial use permit from the Department.
- B. Commercial use shall be administered according to the Department's commercial use rules. This includes the authority to establish terms and conditions for commercial use.
- C. Commercial outfitters authorized to conduct commercial float trips on the Smith River are limited to those outfitters listed in Appendix A. The department may update Appendix A to reflect business transfers or the reallocation of revoked or abandoned commercial launches.
- D. Commercial outfitters and guides conducting angling trips must be licensed in the State of Montana.
- E. Commercial outfitters are limited to a maximum of 73 float trip launches per year.
- F. The department shall establish commercial outfitter float trip launch dates in consultation with the commercial outfitters and in accordance with the following criteria:
 - i. **During the months of April and August 1-15**
All commercial outfitters must finalize their float trip dates seven days prior to the private permit lottery. Commercial outfitters seeking to reschedule a float trip in April and August 1-15 after the private permit lottery must use the reservation system to request a cancelled float trip. All commercial launches not reserved by an outfitter will be available to the public in the lottery.
 - ii. **During the months of May, June and July**
All commercial float trips not reserved by an outfitter will be designated "On Hold" and will not be included in the public lottery. After the lottery, commercial outfitters may utilize available "On Hold" float trips 29 or more days in advance of an available date. Commercial outfitters seeking to reschedule a float trip to an available date 28 days or fewer from a desired float trip date must use the reservation system to request an open float trip. All commercial float trips not utilized by an outfitter will be available to the public via the reservation system 28 days prior to the float trip date.
- G. There is a maximum of one (1) commercial float trip allowed on Mondays, Tuesdays, Thursdays, Fridays and Saturdays and a maximum of two (2) commercial launches allowed on Sundays and Wednesdays. This equates to a maximum of nine (9) commercial float trips per week.
- H. Commercial outfitters must cancel all un-booked float trips a minimum of fourteen (14) days prior to the float trip date. The park manager may waive disciplinary action for float trips cancelled less than fourteen (14) days prior to the float trip date due to unsafe conditions caused by inclement weather or river flows, insufficient flows for navigability, or other similar exigent circumstances. This does not include float trips cancelled due to undesirable fishing conditions.
- I. Commercial float trip fees must be paid at Camp Baker prior to launching.
- J. The park manager may waive the float trip fee and other related fees for a maximum of two commercial float trips each season on a case-by-case basis when the commercial user donates one or more float trips to a recognized charitable or not-for-profit event and the commercial user is not compensated. No additional commercial float trips may be authorized under this provision. Commercial outfitters requesting a fee waiver must submit a written request to the park manager a minimum of 30 days prior to the anticipated float trip date. Waiver requests shall be considered in the order received.
