

MONTANA DEPARTMENT OF FISH, WILDLIFE AND PARKS

Job Progress Report

State: Montana

Project Title: Statewide Fisheries Investigations

Project No.: F-46-R-4

Study Title: Statewide Surveys and Inventories

Job No.: VI-C

Job Title: Angler Preference and Bioeconomics

Project Period: July 1, 1990 - June 30, 1991

Objectives:

To develop economic values for sport fishing and hunting in Montana and assess the factors contributing to the quality of cold and warm water fishing and hunting (big game and birds). This information will be used in federal, state, and department level planning.

Accomplishments:

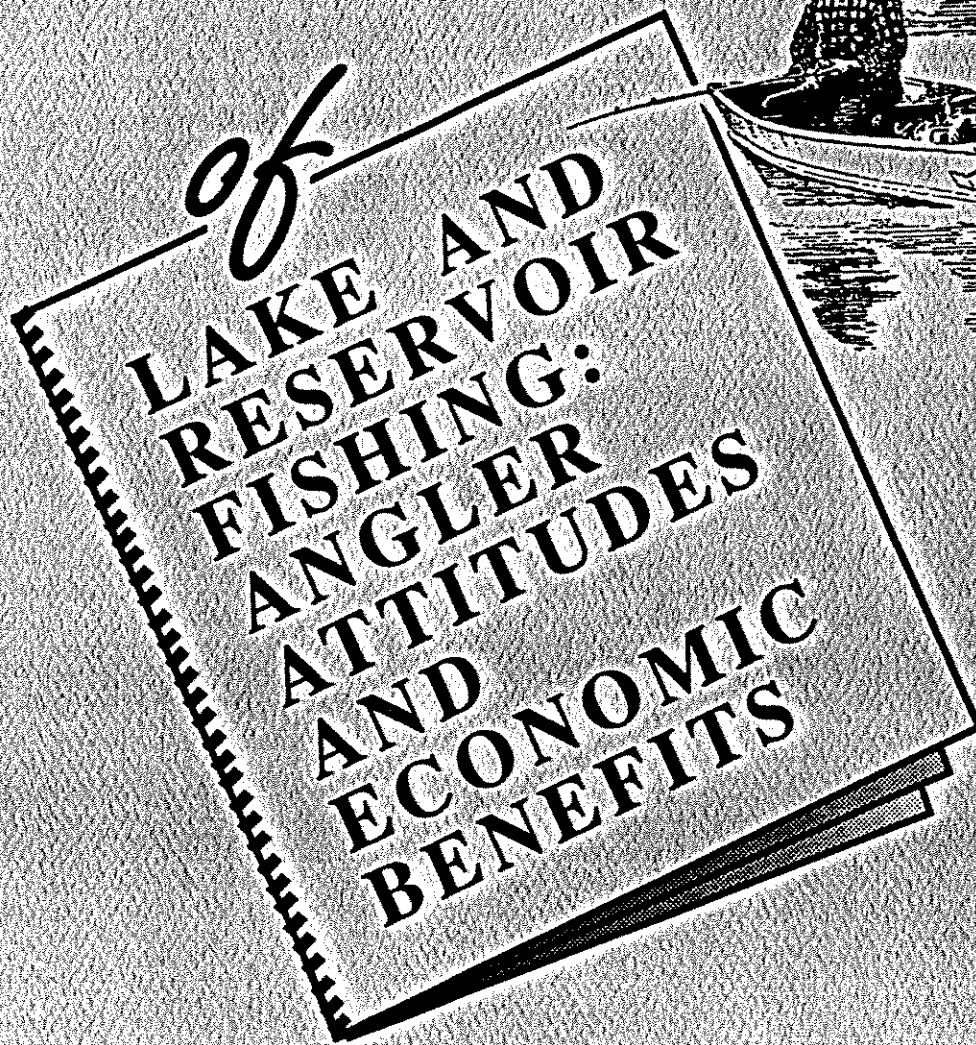

1. The lake and reservoir angler use and preference survey results were analyzed and final report published. Methods and results are included in a separate report.
2. The warm water angler use and preference survey results were analyzed and published in a final report. Methods and results are included in a separate report.
