Notes on data files related to ALL4.SD0:

- There are four separate data files:
  1) padtag.dat (Data set # 1)
  2) pftagn1.dat (Data set # 2;
     from Montana tag data file mailed to UI on Nov., '99)
  3) pahnd2.dat (Data set # 3;
     from N.Dakota tag data file mailed on Nov.,'99)
  4) pfalltag.dat (Below Ft.Peck data)

- General tagging data file (ALL4.SD0) was constructed by combining the above four data files into one:

  1) Data set #1 and #2 were combined:
     a) If same tag records (other than MTPJs and MTWJs) in both file, use the one in Data set #1. For the ones only in either data set, use as they are.
     b) Select MTPJs and MTWJs from the Data set # 1
     c) Combine data from a and b

  2) Combine the data from 1, Data set #3 and Below-Ft.Peck data.
