^aHarvest of adult bulls and cows (no calves) during the archery and general seasons combined must be a number ≥51% of recruitment for both bulls and cows.

^bHarvest during all seasons combined (archery, general and shoulder seasons) must be a combined harvest of bulls, cows **and calves** ≥100% of recruitment of all elk.

Note: There were also shoulder seasons in HDs 101, 109 and 292 designed to address the fundamental objective of "Address problematic distributions of elk and elk harvest" and are not subject to harvest criteria.
