

## Anglers Can Stop Aquatic Invasive Species

**Take these simple steps every time you fish to be sure you're not moving invasive species from one waterbody to another.**

### **CLEAN**

all plants, mud and debris from fishing gear, waders and boots before leaving the water. Use a scrub brush if needed.

### **DRAIN**

any standing water from gear. A sponge can help.

### **DRY**

everything before using it again. Gear should be dry to the touch. When possible use different waders for different waterbodies.

### **DISPOSE**

of unwanted bait in the trash, not on land or in the water.

### **NEVER**

transport plants, fish or animals into a different body of water.

**MONTANA FISH,  
WILDLIFE & PARKS**
